

English.⁸ Staff therefore projects that approximately 6.5 percent of used car sales will be conducted in Spanish. Dealers will incur the additional burden of completing and displaying a second Buyers Guide in 6.5 percent of sales assuming that dealers choose to comply with the Rule by posting both English and Spanish Buyers Guides. The annual burden hours associated with completing and posting Buyers Guides is 1,737,638 hours (1,022,140 hours for entering data on Buyers Guides plus 715,498 hours for displaying Buyers Guides). Therefore, staff estimates that the additional burden caused by the Rule's requirement that dealers display Spanish language Buyers Guides when conducting sales in Spanish is 112,947 hours (1,737,638 hours × 6.5%). The other components of the annual hours burden, i.e., purchasing Buyers Guides and revising them for changes in warranty coverage, remain unchanged.

Estimated annual cost burden:

\$26,301,525 in labor costs and \$4,906,275 in non-labor costs

1. *Labor costs:* Labor costs are derived by applying appropriate hourly cost figures to the burden hours described above. Staff has determined that all of the tasks associated with ordering forms, entering data on Buyers Guides, posting Buyers Guides on vehicles, and revising them as needed, including the corresponding tasks associated with Spanish Buyers Guides, are typically done by clerical or low-level administrative personnel. Using a clerical cost rate of \$13.32 per hour⁹ and an estimated burden of 1,974,589 hours for disclosure requirements, the total labor cost burden would be approximately \$26,301,525.

2. *Capital or other non-labor costs:* Although the cost of Buyers Guides can vary considerably, based on industry input staff estimates that the average cost of each Buyers Guide is twenty cents. The estimated cost of Buyers Guides for the 24,531,374 used cars sold by dealers in 2009 is approximately \$4,906,275. In making this estimate, staff conservatively assumes that all

dealers will purchase preprinted forms instead of producing them internally, although dealers may produce them at minimal expense using current office automation technology. Capital and start-up costs associated with the Rule are minimal.

Christian S. White,

Acting General Counsel.

SUPPLEMENTARY INFORMATION:

A. Purpose

Part 28 of the FAR contains guidance related to obtaining financial protection against damages under Government contracts (e.g., use of bonds, bid guarantees, insurance etc.). Part 52 contains the texts of solicitation provisions and contract clauses. These regulations implement a statutory requirement for information to be provided by Federal contractors relating to payment bonds furnished under construction contracts which are subject to the Miller Act (40 U.S.C. 270a–270d). This collection requirement is mandated by Section 806 of the National Defense Authorization Act for Fiscal Years 1992 and 1993 (Pub. L. 102–190), as amended by Section 2091 of the Federal Acquisition Streamlining Act of 1994 (Pub. L. 103–335). The clause at 52.228–12, Prospective Subcontractor Requests for Bonds, implements Section 806(a)(3)

of Public Law 102–190, as amended, which specifies that, upon the request of a prospective subcontractor or supplier offering to furnish labor or material for the performance of a construction contract for which a payment bond has been furnished to the United States pursuant to the Miller Act, the contractor shall promptly provide a copy of such payment bond to the requestor.

In conjunction with performance bonds, payment bonds are used in Government construction contracts to secure fulfillment of the contractor’s obligations under the contract and to assure that the contractor makes all payments, as required by law, to persons furnishing labor or material in performance of the contract. This regulation provides prospective subcontractors and suppliers a copy of the payment bond furnished by the contractor to the Government for the performance of a Federal construction contract subject to the Miller Act. It is expected that prospective subcontractors and suppliers will use this information to determine whether to contract with that particular prime contractor. This information has been and will continue to be available from the Government. The requirement for contractors to provide a copy of the payment bond upon request to any prospective subcontractor or supplier under the Federal construction contract is contained in Section 806(a)(3) of Public Law 102–190, as amended by Sections 2091 and 8105 of Public Law 103–355.

One comment was received. The commenter expressed support for extending this information collection. The commenter had some concern because subcontractors are not receiving payment bonds from the prime contractor upon request. The Miller Act allows subcontractors to request a copy of the payment bond from the prime contractor. In addition, FAR 28.106–6(d) requires the contracting officer to provide a copy of the payment bond to subcontractors upon request. The commenter recommended that the Government consider creating an online system for prospective subcontractors and suppliers to view and print copies of the payment bond. At this time, the online system is deemed unnecessary because there are other alternatives currently in place to receive this information. As stated earlier, the FAR currently requires the contracting officer to provide to the subcontractor a copy of the payment bond upon request as stated in FAR 28.106(d). The Government is unaware of problems resulting from this option.
