SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for a renewal of a currently approved information collection. The National Oceanic and Atmospheric Administration (NOAA) provides educators an opportunity to gain first-hand experience with field research activities through the Teacher at Sea Program. Through this program, educators spend up to three weeks at sea on a NOAA research vessel, participating in an on-going research project with NOAA scientists. Once educators are selected and participate on a cruise, they write a report detailing the events of the cruise and ideas for

classroom activities based on what they learned while at sea. These materials are then made available to other educators so they may benefit from the experience, without actually going to sea themselves. In order to better serve the participants, the Teacher at Sea Program will survey the teacher participants on their experience before, during, and after they return from sea. The survey will collect data only from teacher participants, not from applicants.

Certain Welded Carbon Steel Standard Pipes and Tubes From India: Extension of the Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* October 15, 2010.

FOR FURTHER INFORMATION CONTACT: Michael A. Romani or Minoo Hatten, AD/CVD Operations, Office 5, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone (202) 482-0198 or (202) 482-1690, respectively.

SUPPLEMENTARY INFORMATION:

Background

On June 14, 2010, the Department of Commerce (the Department) published the preliminary results of the administrative review of the antidumping duty order on certain welded carbon steel standard pipes and tubes from India. *See Certain Welded Carbon Steel Standard Pipes and Tubes from India: Preliminary Results of Antidumping Duty Administrative Review*, 75 FR 33578 (June 14, 2010). The review covers the period May 1, 2008, through April 30, 2009. The final results of the review are currently due no later than October 12, 2010.

Extension of Time Limit for Final Results

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the final results of an administrative review within 120 days after the date on which the preliminary results are published. If it is not practicable to complete the review within this time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the final results up to 180 days after the date on which the preliminary results are published.

We determine that it is not practicable to complete the final results of this review within the original time limit because we need additional time to analyze certain complicated issues relating to the universe of sales and the date of sale. Therefore, we are extending the time period for issuing the final results of this review by 24 days until November 5, 2010.
