

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified no paperwork non-hour cost burdens associated with the collection of information.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information unless it displays a currently valid OMB control number. Until OMB approves a collection of information, *you are not obligated to respond.*

Comments: Section 3506(c)(2)(A) of the PRA (44 U.S.C. 3501, *et seq.*) requires each agency “* * * to provide notice * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *”. Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, on March 22, 2010, we published a **Federal Register** notice (75 FR 13570) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, 250.199 provides the OMB control number for the information collection requirements imposed by the 30 CFR 250 regulations. The regulation also informs the public that they may comment at any time on the collections of information and provides the address to which they should send comments. We have received no comments in response to these efforts.

If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. The OMB has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore, to ensure maximum consideration, OMB should receive public comments by November 29, 2010.

Public Availability of Comments: Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your

personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BOEMRE Information Collection Clearance Officer: Arlene Bajusz (703) 787–1025.

Dated: September 1, 2010.

Ruby Lake National Wildlife Refuge, Elko and White Pine Counties, NV; Comprehensive Conservation Plan and Environmental Assessment

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of Intent; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service (Service), intend to prepare a Comprehensive Conservation Plan (CCP) and Environmental Assessment (EA) for the Ruby Lake National Wildlife Refuge, located in Elko and White Pine Counties of Nevada. We provide this notice in compliance with our CCP policy to advise other Federal and State agencies, Tribes, and the public of our intentions, and to obtain suggestions and information on the scope of issues to consider in the planning process.

DATES: To ensure consideration, we must receive your written comments by December 28, 2010.

ADDRESSES: Send your comments or requests for more information by any of the following methods.

- *E-mail:* fw8plancomments@fws.gov. Include “Ruby Lake CCP” in the subject line of the message.
- *Fax:* Attn: Mark Pelz, (916) 414–6497.
- *U.S. Mail:* Ruby Lake National Wildlife Refuge, HC 60, Box 860, Ruby Valley, Nevada 89833–9802.
- *In-Person Drop-off:* You may drop off comments during regular business hours; please call (775) 779–2237 for directions.

FOR FURTHER INFORMATION CONTACT: Mark Pelz, Chief, Refuge Planning, at

(916) 414–6500, or Guy Wagner, Refuge Manager, at (775) 779–2237. Further information may also be found at <http://www.fws.gov/rubylake/>.

SUPPLEMENTARY INFORMATION:

Introduction

With this notice, we initiate our process for developing a CCP for Ruby Lake NWR in Elko and White Pine Counties, NV. This notice complies with our CCP policy to (1) Advise other Federal and State agencies, Tribes, and the public of our intention to conduct detailed planning on this refuge and (2) obtain suggestions and information on the scope of issues to consider in the environmental document and during development of the CCP.

Background

The CCP Process

The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) (Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each national wildlife refuge. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years in accordance with the Administration Act.

Each unit of the National Wildlife Refuge System was established for specific purposes. We use these purposes as the foundation for developing and prioritizing the management goals and objectives for each refuge within the National Wildlife Refuge System mission, and to determine how the public can use each refuge. The planning process is a way for us and the public to evaluate management goals, objectives, and strategies that will ensure the best possible approach to wildlife, plant, and habitat conservation, while providing for wildlife-dependent recreation opportunities that are compatible with each refuge’s establishing purposes and

the mission of the National Wildlife Refuge System.

Our CCP process provides opportunities for participation by Tribal, State, and local governments; agencies; organizations; and the public. We will be contacting identified stakeholders and individuals at this time for initial input. If you would like to meet with planning staff or would like to receive periodic updates, please contact us (*see ADDRESSES* section). At this time we encourage comments in the form of issues, concerns, ideas, and suggestions for the future management of Ruby Lake NWR.

We will conduct the environmental review of this project in accordance with the requirements of the National Environmental Policy Act of 1969, as amended (NEPA) (42 U.S.C. 4321 *et seq.*); NEPA regulations (40 CFR parts 1500–1508); other appropriate Federal laws and regulations; and our policies and procedures for compliance with those laws and regulations.

Ruby Lake National Wildlife Refuge

Ruby Lake National Wildlife Refuge (NWR) was established in 1938 as a refuge and breeding ground for migratory birds and other wildlife (Executive Order 7923). Located along migration corridors serving both the Pacific and Central flyways, this refuge is a crossroads for birds migrating west along the Humboldt River to the Owens Valley, east to Utah's Great Salt Lake, northwest to the Klamath Basin, and south to the Colorado River Valley. Ruby Lake NWR supports the largest population of nesting canvasback ducks west of the Mississippi River outside Alaska, and is a vital waterfowl nesting area.

More than 200 springs emanating from the base of the Ruby Mountains provide life-sustaining water to the 39,926-acre refuge. The marsh is surrounded by 22,926 acres of meadows, grasslands, alkali playa, and shrub-steppe uplands. Water elevations in some marsh units are controlled to provide nesting and feeding areas for waterfowl and other marsh bird species. Vegetation in the meadows and grasslands is managed to provide nesting cover and feeding areas for wildlife. Existing public uses include wildlife observation, photography, interpretation, environmental education, waterfowl hunting, and recreational fishing.

Scoping: Preliminary Issues, Concerns, and Opportunities

We have identified preliminary issues, concerns, and opportunities that we may address in the CCP. These

include wildlife management, habitat management, wildlife-dependent recreation, environmental education, and cultural resources. During public scoping, we may identify additional issues.

Public Meetings

We will give the public an opportunity to provide input at a public meeting (or meetings). You may obtain the schedule from the refuge planner or refuge manager (*see FOR FURTHER INFORMATION CONTACT*). You may also submit comments or request a meeting during the planning process by mail, e-mail, or fax (*see ADDRESSES*). There will be additional opportunities to provide public input once we have prepared a draft CCP.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: October 22, 2010.

Alexandra Pitts,

Acting Regional Director, Pacific Southwest Region, Sacramento, California.

BILLING CODE 4310–55–P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Fish and Wildlife Service

Suisun Marsh Habitat Management, Preservation, and Restoration Plan, California

AGENCIES: Bureau of Reclamation and Fish and Wildlife, Interior.

ACTION: Notice of availability of draft environmental impact statement/ environmental impact report (EIS/EIR) and notice of public meetings.

SUMMARY: The Bureau of Reclamation (Reclamation) and the Fish and Wildlife Service (Service), as the National Environmental Policy Act (NEPA) Federal joint lead agencies, and the State of California Department of Fish and Game (DFG), acting as the California Environmental Quality Act State lead agency, have made available for public review and comment the

Suisun Marsh Habitat Management, Preservation, and Restoration Plan (SMP) Draft EIS/EIR. The SMP is a comprehensive 30-year plan designed to address various conflicts regarding use of resources within approximately 51,000 acres of the Suisun Marsh (Marsh), with the focus on achieving an acceptable multi-stakeholder approach to the restoration of tidal wetlands and the enhancement of managed wetlands and their functions.

DATES: Written comments on the Draft EIS/EIR must be received by 5 p.m. Pacific time on December 28, 2010.

Two public meetings have been scheduled to receive written comments regarding environmental effects:

- Thursday, November 18, 2010, 2 p.m. to 4 p.m., Suisun City, CA.
- Thursday, November 18, 2010, 6 p.m. to 8 p.m., Benicia, CA.

ADDRESSES: Send any written comments on the Draft EIS/EIR to Ms. Becky Victorine, Bureau of Reclamation, 2800 Cottage Way, Sacramento, CA 95825; or e-mail to rvictorine@usbr.gov.

The public meetings will be held at the following locations:

- Suisun City, CA at Rush Ranch, 3521 Grizzly Island Road, Suisun City, CA 94585.
- Benicia, CA at Benicia Public Library, 150 East L Street, Benicia, CA 94510.

The Draft EIS/EIR is accessible at the following Web site: http://www.usbr.gov/mp/nepa/nepa_projdetails.cfm?Project_ID=781. Copies may also be requested from Ms. Becky Victorine, at the above addresses or at 916–978–5035.

FOR FURTHER INFORMATION CONTACT: Ms. Becky Victorine, Bureau of Reclamation, 916–978–5035, rvictorine@usbr.gov, or Ms. Cay Goude, U.S. Fish and Wildlife Service, 916–414–6600, cay_goude@fws.gov.

SUPPLEMENTARY INFORMATION: The Draft EIS/EIR documents the direct, indirect, and cumulative effects to the physical, biological, and socioeconomic environment that may result from implementing the SMP alternatives.

As the largest contiguous brackish water marsh remaining on the west coast of North America, the Marsh is a critical part of the San Francisco Bay/Sacramento-San Joaquin Delta (Bay-Delta) estuary ecosystem. The values of the Marsh have been recognized as important, and several agencies have been involved in the area's protection since the mid-1970s. In 2001, the principal Federal, State, and local agencies that have jurisdiction or interest in the Marsh directed the formation of a charter group to develop
