

incorporated specific technical design requirements for installation of crane rail at its WWTP. Therefore, it meets the requirements of the “satisfactory quality” criterion for requesting a waiver from the Buy American provisions of Public Law 111–5.

The purpose of the ARRA is to stimulate economic recovery in part by funding current infrastructure construction, not to delay projects that are “shovel ready” by requiring utilities, such as Taos, to revise their standards and specifications, institute a new bidding process, and potentially choose a more costly, less efficient project. The imposition of ARRA Buy American requirements on such projects otherwise eligible for State Revolving Fund assistance would result in unreasonable delay and thus displace the “shovel ready” status for this project. To further delay construction is in direct conflict with a fundamental economic purpose of the ARRA, which is to create or retain jobs.

The Region 6 Water Quality Protection Division has reviewed this waiver request, and has determined that the supporting documentation provided by Taos is sufficient to meet the criteria listed under ARRA, Section 1605(b), Office of Management and Budget (OMB) regulations at 2 CFR 176.60–176.170, and in the April 28, 2009 memorandum, “Implementation of Buy American provisions of Public Law 111–5, the American Recovery and Reinvestment Act of 2009. The basis for this project waiver is the authorization provided in ARRA, Section 1605(b) (2). Due to the lack of production of this product in the United States in sufficient and reasonably available quantities and of a satisfactory quality in order to meet Taos’ technical specifications, a waiver from the Buy American requirement is justified.

EPA headquarters’ March 31, 2009 Delegation of Authority Memorandum provided Regional Administrators with the authority to issue exceptions to Section 1605 of ARRA within the geographic boundaries of their respective regions and with respect to requests by individual grant recipients. Having established both a proper basis to specify the particular good required for this project, and that this manufactured good was not available from a producer in the United States, Taos is hereby granted a waiver from the Buy American requirements of ARRA, Section 1605(a) of Public Law 111–5 for the purchase of “40 lb/yd crane railing” using ARRA funds, as specified in Taos’ request. This supplementary information constitutes the detailed written justification required by ARRA,

Section 1605(c), for waivers “based on a finding under subsection (b).”

Information claimed as CBI and other information whose disclosure is restricted by statute is not included in the official public docket or in the electronic public docket. EPA's policy is that copyrighted material, including copyrighted material contained in a public comment, will not be placed in EPA's electronic public docket but will be available only in printed, paper form in the official public docket.
