Enbridge Pipelines (North Texas) L.P.; Notice of Baseline Filing

November 4, 2010.

Take notice that on November 3, 2010, Enbridge Pipelines (North Texas) L.P. submitted a revised baseline filing of its Statement of Operating Conditions for services provided under section 311 of the Natural Gas Policy Act of 1978 (NGPA).

Any person desiring to participate in this rate proceeding must file a motion to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as

indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Extension of the Period for Preparation of the Clean Water Act Section 404(c) Final Determination and Consultation Concerning the Spruce No. 1 Mine, Logan County, WV

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On September 24, 2010, the EPA Region III Regional Administrator signed a Recommended Determination, under Section 404(c) of the Clean Water Act, recommending withdrawal of the specification embodied in DA Permit No. 199800436-3 (Section 10: Coal River) of Pigeonroost Branch and Oldhouse Branch as disposal sites for discharges of dredged and/or fill material associated with construction of the Spruce No. 1 Surface Mine in Logan County, West Virginia. The transmission of the Recommended Determination to

EPA Headquarters initiated a 60-day period for the Assistant Administrator for the Office of Water to review the recommendation of the Regional Administrator. As part of this review period, EPA has also notified the Department of the Army, the State of West Virginia, Arch Coal, Inc. (the permittee), and the landowners of record as to the Recommended Determination, and has notified these groups that they have 15 days in which to notify the Assistant Administrator for the Office of Water of their intent to take corrective action to prevent the unacceptable adverse impacts to wildlife detailed in the recommendation.

In response, attorneys for the permittee have requested a 30-day extension of this consultation period, to November 29, 2010, in order to review the Recommended Determination and associated technical appendices. Provided in 40 CFR 231.8, EPA may, upon showing of good cause, extend the time requirements in the 404(c) regulations. In this case, EPA believes it is appropriate to grant the permittee's request for a 30-day extension to the consultation process. This extension will provide additional time to evaluate any corrective actions proposed by the permittee, or other participants in the consultation process described in 40 CFR 231.6, that would prevent the likely unacceptable adverse effects described in the Recommended Determination. The consultation process will therefore expire on November 29, 2010.

As described above, EPA's 404(c) regulations provide that the Assistant Administrator for the Office of Water shall issue a Final Determination within 60 days of receiving the Regional Administrator's Recommended Determination. This 60-day period is scheduled to expire on November 23, 2010. EPA may extend this deadline upon a showing of good cause. EPA believes that good cause exists to extend this deadline in order to complete the Final Determination by February 22, 2011. This extension will permit the Office of Water to more closely evaluate Region III's Recommended Determination and the administrative record, which includes more than 50,000 public comments. It will also enable more careful consideration of any new information that arises during the consultation process undertaken pursuant to 40 CFR 231.6, as described above. Finally, this date is consistent with an order issued by the U.S. District Court for the Southern District of West Virginia on November 2, granting a continued stay in litigation over the

Spruce #1 permit until February 22, 2011.

Mr. Evans can also be reached via electronic mail at Evans.David@epa.gov.

Dated: November 4, 2010.

Peter S. Silva,

Assistant Administrator, Office of Water.

Draft Toxicological Review of Hexavalent Chromium: In Support of Summary Information on the Integrated Risk Information System (IRIS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Extension of Public Comment Period to December 29, 2010.

SUMMARY: EPA published a 60-day public comment period on September 30, 2010 (75 FR 60454) for the external review draft human health assessment titled, "Toxicological Review of Hexavalent Chromium: In Support of Summary Information on the Integrated Risk Information System (IRIS)" EPA/635/R-10/004C. We are extending the public comment period 30 days at the request of the American Chemistry Council (ACC). The draft assessment was prepared by the National Center for Environmental Assessment (NCEA) within the EPA Office of Research and Development (ORD). EPA released this draft assessment solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. This draft assessment has not been formally disseminated by EPA. It does not represent and should not be construed to represent any Agency policy or determination. After public review and comment, an EPA contractor will convene an expert panel for independent external peer review of this draft assessment. The public comment period and external peer review meeting are separate processes that provide opportunities for all interested parties to comment on the assessment. The external peer review meeting will be scheduled at a later date and announced

in the **Federal Register**. Public comments submitted during the public comment period will be provided to the external peer reviewers before the panel meeting and considered by EPA in the disposition of public comments. Public comments received after the public comment period closes will not be submitted to the external peer reviewers and will only be considered by EPA if time permits.

DATES: The public comment period will be extended from November 29, 2010 to December 29, 2010. Comments should be in writing and must be received by EPA by December 29, 2010.

ADDRESSES: The draft "Toxicological Review of Hexavalent Chromium: In Support of Summary Information on the Integrated Risk Information System (IRIS)" is available primarily via the Internet on the NCEA home page under the Recent Additions and Publications menus at <http://www.epa.gov/ncea>. A limited number of paper copies are available from the Information Management Team (Address: Information Management Team, National Center for Environmental Assessment (Mail Code: 8601P), U.S. Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone: 703-347-8561; facsimile: 703-347-8691). If you request a paper copy, please provide your name, mailing address, and the draft assessment title.

Comments may be submitted electronically via <http://www.regulations.gov>, by e-mail, by mail, by facsimile, or by hand delivery/courier. Please follow the detailed instructions provided in the **SUPPLEMENTARY INFORMATION** section of the previous notice (75 FR 60454).

FOR FURTHER INFORMATION CONTACT: For information on the docket, <http://www.regulations.gov>, or the public comment period, please contact the Office of Environmental Information (OEI) Docket (Mail Code: 2822T), U.S. Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone: 202-566-1752; facsimile: 202-566-1753; or e-mail: ORD.Docket@epa.gov.
