

Department's preliminary determination. In addition, section 736(b)(2) of the Act requires U.S. Customs and Border Protection ("CBP") to refund any cash deposits or bonds of estimated antidumping duties posted since the preliminary antidumping determination if the ITC's final determination is threat-based. Therefore, in accordance with section 736(b)(2) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and refund any cash deposits made and release any bonds posted for estimated antidumping duties for entries of seamless pipe from the PRC entered, or withdrawn from warehouse, for consumption on or after April 28, 2010, the date on which the Department published its *Preliminary Determination*, but before the date of publication of the ITC's final determination in the **Federal Register**. For exports from Hengyang and the PRC-wide entity, we will instruct CBP to lift suspension, release any bond or other security, and refund any cash deposit made to secure the payment of antidumping duties with respect to entries of the merchandise entered, or withdrawn from warehouse, for consumption on or after January 28, 2010 (*i.e.*, 90 days prior to the date of publication of the preliminary determination in the **Federal Register**), through April 27, 2010. Further, we will instruct CBP to continue to suspend liquidation of subject merchandise entered, or withdrawn from warehouse, for consumption on or after the date of publication of the ITC's notice of final determination. The instructions suspending liquidation will remain in effect until further notice.

In accordance with section 736(a)(3) of the Act, we will instruct CBP to require cash deposits of estimated antidumping duties. In its final determination in the companion countervailing duty ("CVD") investigation, the Department found that TPCO's and Hengyang's merchandise benefited from export subsidies.¹ Additionally, because the Department found that TPCO and Hengyang, the companies that it investigated in the CVD case, benefited from export subsidies, all other exporters have benefited from export subsidies based upon the results determined for TPCO and Hengyang. Therefore, we will instruct CBP to require an antidumping duty cash deposit equal to the weighted-

average amount by which the normal value exceeds the U.S. price for TPCO and Hengyang, as indicated in the table above, minus the amount determined to constitute an export subsidy for each company. For the separate-rate companies, we will instruct CBP to adjust the dumping margin by the amount of export subsidies included in the All Others rate from the *CVD Final*. Accordingly, as of the date of publication of the ITC's final affirmative injury determination, CBP will require, at the same time as importers would normally deposit estimated duties on this subject merchandise, a cash deposit equal to the estimated weighted-average antidumping duty margins discussed above, minus the amount determined to constitute an export subsidy. See section 735(c)(1) of the Act. The "PRC-wide" rate applies to all exporters of subject merchandise not specifically listed.

Additionally, in accordance with section 736 of the Act, the Department will also direct CBP to assess antidumping duties on all unliquidated entries of seamless pipe from the PRC entered, or withdrawn from warehouse, for consumption on or after the date on which the ITC published its notice of final determination of threat of material injury in the **Federal Register**.

This notice constitutes the antidumping duty order with respect to seamless pipe from the PRC pursuant to section 736(a) of the Act. Interested parties may contact the Department's Central Records Unit, Room 7043 of the main Commerce building, for copies of an updated list of antidumping duty orders currently in effect.

This order is published in accordance with section 736(a) of the Act and 19 CFR 351.211.

Edward C. Yang,

Acting Deputy Assistant Secretary for Import Administration.

Initiation of Antidumping and Countervailing Duty Administrative Reviews; Correction

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("the Department") published a notice in the **Federal Register** on October 28, 2010, concerning the initiation of administrative reviews of various

antidumping and countervailing duty orders and findings with September anniversary dates. The document contained incorrect information in both the Antidumping and Countervailing Duty Proceedings table.

DATES: *Effective Date:* November 10, 2010.

FOR FURTHER INFORMATION CONTACT: Sheila E. Forbes, Office of AD/CVD Operations, Customs Unit, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482-4697.

Background

In the **Federal Register** of October 28, 2010, 75 FR 66349, under the tables entitled "Antidumping Duty Proceedings and Countervailing Duty Proceedings," we note that the Department inadvertently listed the exporter names: Asia Pacific CIS (Wuxi) Co., Ltd., Asia Pacific CIS (Thailand) Co., Ltd., Hengtong Hardware Manufacturing (Huizhou) Co., Ltd., Taiwan Rail Company, and King Shan Wire Co., Ltd. under case numbers A-570-941 and C-570-942. For reasons explained in footnote #'s 5 & 6 in the October 28, 2010 **Federal Register** notice, the Department retracts its initiation of an administrative review of the antidumping duty order and the countervailing duty order with respect to the above referenced company names for case numbers A-570-941 and C-570-942 for the period of review 09/01/09 through 08/31/10.

Dated: November 4, 2010.

Susan H. Kubbach,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Uncovered Innerspring Units From the People’s Republic of China: Preliminary Results of First Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the “Department”) is conducting an administrative review of the antidumping duty order on uncovered innerspring units (“innersprings”) from the People’s Republic of China (“PRC”), covering the period of review (“POR”) August 6, 2008–January 31, 2010. As discussed below, we preliminarily determine that the PRC-wide entity made sales in the United States at prices below normal value (“NV”). If these preliminary results are adopted in our final results of review, we will instruct U.S. Customs and Border Protection (“CBP”) to assess antidumping duties on entries of subject merchandise during the POR.

DATES: *Effective Date:* November 10, 2010.

FOR FURTHER INFORMATION CONTACT: Toni Dach, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington DC 20230; telephone (202) 482-1655.

SUPPLEMENTARY INFORMATION: On March 1, 2010, we received a request from the Petitioner¹ to conduct administrative reviews for two companies, Foshan Jingxin Steel Wire & Spring Co., Ltd. (“Jingxin”) and Top One Manufacturing Factory (“Top One”). On March 30, 2010, we initiated an administrative review of the antidumping order on innersprings from the PRC.²

On March 31, 2010, the Department issued antidumping duty questionnaires to Jingxin and Top One, since they were the only two companies for which a review was requested.³ On April 3, 2010, Jingxin received the antidumping duty questionnaire. On April 23, 2008, the Department re-issued the antidumping duty questionnaire to Top

One because the initial questionnaire had not been delivered by FedEx.⁴ On April 26, 2010 Top One received the antidumping duty questionnaire reissued by the Department on April 23, 2010.⁵ We note that neither Jingxin nor Top One responded to the Department’s questionnaire.

Scope of the Order

The merchandise subject to the order is uncovered innerspring units composed of a series of individual metal springs joined together in sizes corresponding to the sizes of adult mattresses (*e.g.*, twin, twin long, full, full long, queen, California king and king) and units used in smaller constructions, such as crib and youth mattresses. All uncovered innerspring units are included in the scope regardless of width and length. Included within this definition are innersprings typically ranging from 30.5 inches to 76 inches in width and 68 inches to 84 inches in length. Innersprings for crib mattresses typically range from 25 inches to 27 inches in width and 50 inches to 52 inches in length.

Uncovered innerspring units are suitable for use as the innerspring component in the manufacture of innerspring mattresses, including mattresses that incorporate a foam encasement around the innerspring.

Pocketed and non-pocketed innerspring units are included in this definition. Non-pocketed innersprings are typically joined together with helical wire and border rods. Non-pocketed innersprings are included in this definition regardless of whether they have border rods attached to the perimeter of the innerspring. Pocketed innersprings are individual coils covered by a “pocket” or “sock” of a nonwoven synthetic material or woven material and then glued together in a linear fashion.

Uncovered innersprings are classified under subheading 9404.29.9010 and have also been classified under subheadings 9404.10.0000, 7326.20.0070, 7320.20.5010, or 7320.90.5010 of the Harmonized Tariff Schedule of the United States (“HTSUS”). The HTSUS subheadings are provided for convenience and customs purposes only; the written description of the scope of the order is dispositive.
