National Gas Supply Association, American Forest and Paper Association, Inc., American Public Gas Association, Independent Petroleum Association of America, Process Gas Consumers Group; Notice of Petition

November 19, 2010.

Take notice that on November 17, 2010, the Natural Gas Supply Association, American Forest and Paper Association, Inc., American Public Gas Association, Independent Petroleum Association of America, and Process Gas Consumers Group (collectively, the Associations), filed in Docket No. RP11-1538-000, a petition pursuant to Rule 207(a)(5) of the Commission's Rules of Practice and Procedure, requesting that the Commission exercise its authority under section 5 of the Natural Gas Act to enforce its policy regarding pipeline reservation charge crediting during outages and order pipelines to amend their tariffs in accordance with Commission policy.

Specifically, the Associations ask the Commission to ensure that: (1) All pipelines incorporate into their tariffs an acceptable sharing mechanism that allows for partial reservation charge credits during outages that are due to unexpected and uncontrollable *force*

majeure events, and (2) all pipeline tariffs require full reservation charge credits to shippers during outages that are not due to unexpected and uncontrollable *force majeure* events.

Any person desiring to intervene or to protest in this proceeding must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. What information is EPA particularly interested in?

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) Enhance the quality, utility, and clarity of the information to be collected; and
- (iv) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

What should I consider when I prepare my comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

What information collection activity or ICR does this apply to?

Docket ID No. EPA-OAR-2007-0093; FRL 8336-3.

Affected entities: Entities potentially affected by this action are State, local or Tribal governments.

Title: Clean Air Act Tribal Authority.

ICR numbers: EPA ICR No. 1676.05, OMB Control No. 2060-0306.

ICR status: This ICR is currently scheduled to expire on 05/31/2011. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: This Information Collection Request (ICR) seeks authorization for Tribes to demonstrate their eligibility to be treated in the same manner as States under the Clean Air Act (CAA) and to submit applications to implement a CAA program. This ICR extends the collection period of information for determining eligibility, which expires May 31, 2011. The ICR also is revising the estimates of burden costs for Tribes in completing a CAA application.

The program regulation provides for Indian Tribes, if they so choose, to assume responsibility for the development and implementation of CAA programs. The regulation, Indian Tribes: Air Quality Planning and Management (Tribal Authority Rule [TAR] 40 CFR parts 9, 35, 49, 50 and 81), sets forth how Tribes may seek authority to implement their own air quality planning and management programs. The rule establishes: (1) Which CAA provisions Indian Tribes may seek authority to implement, (2) what requirements the Tribes must meet when seeking such authorization, and (3) what Federal financial assistance may be available to help Tribes establish and manage their air quality programs. The TAR provides Tribes the authority to administer air quality programs over all air resources, including non-Indian owned fee lands, within the exterior boundaries of a reservation and other areas over which the Tribe can demonstrate jurisdiction. An Indian Tribe that takes responsibility for a CAA program would essentially be treated in the same way as a State would be treated for that program.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information

unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 40 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 27.

Frequency of response: One-time application.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 1080.

Estimated total annual costs: \$18,838.80. This includes an estimated burden cost of \$18,838.80 and an estimated cost of \$0 for capital investment or maintenance and operational costs.

Are there changes in the estimates from the last approval?

There is no decrease of hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

What is the next step in the process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you

have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.
