

commercial fishery quota to the recreational fishery quota; 2,500 Chinook salmon were transferred from the recreational fishery guideline to the commercial fishery quota. This action was taken to provide additional Chinook salmon quota to the commercial fishery to extend the season and to provide additional coho quota to the recreational fishery. On August 5, 2010, the States recommended this action and the RA concurred; inseason action #13 took effect on August 6, 2010. The States and the RA met again on August 12, 2010 to consult with the Salmon Technical Team (STT). The STT modeled and reported on the impact neutral equivalents of the trade that took effect August 6, 2010. The transfer of 7,000 coho to the recreational fishery resulted in a net reduction of 5,700 coho in the commercial quota. The transfer of 2,500 Chinook salmon from the recreational fishery resulted in a net increase of 1,650 Chinook salmon in the commercial quota. Modification of quota and/or fishing seasons is authorized by 50 CFR 660.409 (b)(1)(i).

All other restrictions and regulations remain in effect as announced for the 2010 Ocean Salmon Fisheries and previous inseason actions.

The RA determined that the best available information indicated that the catch and effort data, and projections, supported the above inseason actions recommended by the States. The States manage the fisheries in State waters adjacent to the areas of the U.S. exclusive economic zone in accordance with these Federal actions. As provided by the inseason notice procedures of 50 CFR 660.411, actual notice of the described regulatory actions was given, prior to the date the action was effective, by telephone hotline number 206-526-6667 and 800-662-9825, and by U.S. Coast Guard Notice to Mariners broadcasts on Channel 16 VHF-FM and 2182 kHz.

#### Classification

The Assistant Administrator for Fisheries, NOAA (AA), finds that good cause exists for this notification to be issued without affording prior notice and opportunity for public comment under 5 U.S.C. 553(b)(B) because such notification would be impracticable. As previously noted, actual notice of the regulatory actions was provided to fishers through telephone hotline and radio notification. These actions comply with the requirements of the annual management measures for ocean salmon fisheries (75 FR 24482, May 5, 2010), the West Coast Salmon Plan, and regulations implementing the West Coast Salmon Plan 50 CFR 660.409 and

660.411. Prior notice and opportunity for public comment was impracticable because NMFS and the State agencies had insufficient time to provide for prior notice and the opportunity for public comment between the time the fishery catch and effort data were collected to determine the extent of the fisheries, and the time the fishery modifications had to be implemented in order to ensure that fisheries are managed based on the best available scientific information, thus allowing fishers access to the available fish at the time the fish were available while ensuring that quotas are not exceeded. The AA also finds good cause to waive the 30-day delay in effectiveness required under U.S.C. 553(d)(3), as a delay in effectiveness of these actions would allow fishing at levels inconsistent with the goals of the Salmon Fishery Management Plan and the current management measures.

These actions are authorized by 50 CFR 660.409 and 660.411 and are exempt from review under Executive Order 12866.

## DEPARTMENT OF COMMERCE

### National Oceanic and Atmospheric Administration

#### 50 CFR Part 660

[Docket No. 100218107-0199-01]

RIN 0648-XY83

#### Fisheries Off West Coast States; Modifications of the West Coast Commercial and Recreational Salmon Fisheries; Inseason Actions #14 and #15

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Modification of fishing seasons, gear restrictions, and landing and possession limits; request for comments.

**SUMMARY:** NOAA Fisheries announces two inseason actions in the ocean salmon fisheries. Inseason action #14 modified the commercial fishery in the area from the U.S./Canada Border to Cape Falcon, Oregon. Inseason action #15 modified the commercial and recreational fisheries in the area from

U.S./Canada Border to Cape Falcon, Oregon.

**DATES:** Inseason actions #14 and #15 were effective on September 3, 2010, and remain in effect until the closing date of the 2010 salmon season announced in the 2010 annual management measures or through additional inseason action. Comments will be accepted through December 21, 2010.

**ADDRESSES:** You may submit comments, identified by 0648-XY83, by any one of the following methods:

- **Electronic Submissions:** Submit all electronic public comments via the Federal eRulemaking Portal <http://www.regulations.gov>.

- **Fax:** 206-526-6736, Attn: Peggy Busby.

- **Mail:** 7600 Sand Point Way, NE., Building 1, Seattle, WA, 98115.

**Instructions:** No comments will be posted for public viewing until after the comment period has closed. All comments received are a part of the public record and will generally be posted to <http://www.regulations.gov> without change. All Personal Identifying Information (for example, name, address, etc.) voluntarily submitted by the commenter may be publicly accessible. Do not submit Confidential Business Information or otherwise sensitive or protected information.

NMFS will accept anonymous comments (enter N/A in the required fields, if you wish to remain anonymous). You may submit attachments to electronic comments in Microsoft Word, Excel, WordPerfect, or Adobe PDF file formats only.

**FOR FURTHER INFORMATION CONTACT:** Peggy Busby, by phone at 206-526-4323.

**SUPPLEMENTARY INFORMATION:** In the 2010 annual management measures for ocean salmon fisheries (75 FR 24482, May 5, 2010), NMFS announced the commercial and recreational fisheries in the area from the U.S./Canada Border to the U.S./Mexico Border, beginning May 1, 2010.

The Regional Administrator (RA) consulted with representatives of the Council, Washington Department of Fish and Wildlife, and Oregon Department of Fish and Wildlife on September 2, 2010. The information considered during this consultation related to Chinook and coho salmon catch to date and Chinook and coho salmon catch rates compared to quotas and other management measures established pre-season.

Inseason action #14 announced that the commercial salmon fishery from the

U.S./Canada Border to Cape Falcon, Oregon would close at 11:59 p.m., Tuesday, September 7, 2010. This action was taken to fully utilize remaining Chinook salmon quota without exceeding the available quota between the Commercial and Recreational fisheries. On September 2, 2010, the States recommended this action and the RA concurred; inseason action #14 took effect on September 3, 2010. Modification of quota and/or fishing seasons is authorized by 50 CFR 660.409(b)(1)(i).

Inseason action #15 modified the quotas for the commercial and recreational fisheries through an inseason transfer of quota; 1,000 Chinook salmon were transferred from the north of Cape Falcon recreational fishery guideline to the north of Cape Falcon commercial fishery quota. The Salmon Technical Team determined that the impact neutral effective transfer would increase the commercial quota north of Cape Falcon by 800 Chinook salmon. This action was taken to make available to the commercial fishery Chinook salmon quota that was otherwise projected to go unutilized in the recreational fishery. On September 2, 2010, the States recommended this action and the RA concurred; inseason action #15 took effect on September 3, 2010. Modification of quota and/or fishing seasons is authorized by 50 CFR 660.409(b)(1)(i).

All other restrictions and regulations remain in effect as announced for the 2010 Ocean Salmon Fisheries and previous inseason actions.

The RA determined that the best available information indicated that the catch and effort data, and projections, supported the above inseason actions recommended by the States. The States manage the fisheries in State waters adjacent to the areas of the U.S. exclusive economic zone in accordance with these Federal actions. As provided by the inseason notice procedures of 50 CFR 660.411, actual notice of the described regulatory actions was given, prior to the date the action was effective, by telephone hotline number 206-526-6667 and 800-662-9825, and by U.S. Coast Guard Notice to Mariners broadcasts on Channel 16 VHF-FM and 2182 kHz.
