SOCIAL SECURITY ADMINISTRATION**Privacy Act of 1974, as Amended; Proposed System of Records and Routine Use Disclosures**

AGENCY: Social Security Administration (SSA).

ACTION: Proposed system of records and routine uses.

SUMMARY: In accordance with the Privacy Act (5 U.S.C. 552a(e)(4) and

(e)(11)), we are issuing public notice of our intent to establish a system of records, the *Central Repository of Electronic Authentication Data Master File* (hereinafter referred to as the *e-Authentication File*) and its applicable routine uses. The *e-Authentication File* will maintain personally identifiable information (PII) we collect and use to verify the identity of persons using our electronic services. We discuss the *e-Authentication File* and its routine use disclosures in the Supplementary Information section below. We invite public comments on the *e-Authentication File*.

DATES: We filed a report of the *e-Authentication File* and its applicable routine use disclosures with the Chairman of the Senate Committee on Homeland Security and Governmental Affairs, the Chairman of the House Committee on Oversight and Government Reform, and the Administrator, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) on December 8, 2010. SUPPLEMENTARY INFORMATION:**I. Background and Purpose of the e-Authentication File***A. General Background*

We provide electronic services, such as our automated telephone and Internet applications, for persons doing business with us. When users choose our electronic services, they must provide

their PII. We use their PII to verify their identities. Upon successful verification, we are able to recognize the users' identities and authorize them to conduct business with us electronically.

The *e-Authentication File* supports our agency's objectives to expand electronic services and to provide strong and secure authentication procedures. For security reasons, we must be able to determine, with confidence, persons are who they claim to be each time they choose our electronic services. The *e-Authentication File* will capture the data we need to verify users' identities.

B. Collection and Maintenance of the Data Covered by the e-Authentication File

We will collect and maintain the users' PII in the *e-Authentication File*. The PII may include the users' name, address, date of birth, Social Security number (SSN), phone number, and other types of identity information (e.g., address information of persons from the W-2 and Schedule Self Employed (SE) forms we receive electronically for our programmatic purposes as permitted by 26 U.S.C. 6103(l)(1)(A)). We may also collect knowledge-based authentication data, which is information users establish with us or that we already maintain in existing Privacy Act systems of records.

We will maintain the data necessary to administer and maintain our e-Authentication infrastructure. This includes management and profile information, such as blocked accounts, failed access data, effective date of passwords, and other data that allows us to evaluate the system's effectiveness. The data we maintain also may include archived transaction data and historical data.

II. Routine Use Disclosures of Data Covered by the e-Authentication File*A. Routine Use Disclosures*

We propose to establish the following routine use disclosures of information from the *e-Authentication File*:

1. To the Office of the President in response to a request the Office of the President made at the request of the subject of a record or a third party acting on the subject's behalf.

We will disclose information under this routine use only when the Office of the President indicates it is requesting the record on behalf of the subject of the record or a third party acting on the subject's behalf.

2. To a congressional office in response to a request from that office made at the request of the subject of the record or a third party acting on the subject's behalf.
