1. Supplementary Information

USTR, working with a group of trading partners, has concluded negotiations on a proposed agreement to strengthen international cooperation, enforcement practices and legal frameworks for addressing counterfeiting and piracy. USTR is requesting written comments from the public on the final text of the Anti-Counterfeiting Trade Agreement (ACTA) in connection with consideration of U.S. signature of the agreement.

Participants in the negotiations included: Australia, Canada, the European Union (EU) represented by the European Commission and the EU Presidency (Belgium) and the EU Member States, Japan, Korea, Mexico, Morocco, New Zealand, Singapore, Switzerland and the United States.

Consistent with the Administration’s strategy for intellectual property enforcement, ACTA would be the highest-standard plurilateral agreement yet achieved concerning the enforcement of intellectual property rights, and would establish an international model for effectively combating the global proliferation of commercial-scale counterfeiting and piracy. In addition to requirements concerning legal frameworks for intellectual property enforcement, the proposed agreement also includes innovative provisions to deepen international cooperation and to promote strong enforcement practices. Together these provisions will help to protect American jobs in innovative and creative industries against intellectual property theft.

2. Text and Summary Information
