SUPPLEMENTARY INFORMATION:

Postponement of Preliminary Determinations

On October 20, 2009, the Department of Commerce ("the Department") initiated the antidumping investigations of Seamless Refined Copper Pipe and Tube from the People's Republic of China and Mexico. *See Seamless Refined Copper Pipe and Tube from the People's Republic of China and Mexico: Initiation of Antidumping Duty Investigations*, 74 FR 42852 (October 27, 2009).

The notice of initiation stated that unless postponed the Department would issue the preliminary determinations for these investigations no later than 140 days after the date of initiation, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended ("the Act"). The preliminary determinations were originally due no later than March 9, 2010. After being tolled for seven days, the preliminary determinations are currently due no later than March

16, 2010. *See Memorandum For The Record from Ronald Lorentzen, DAS for Import Administration, titled "Tolling of Administrative Deadlines As a Result of the Government Closure During the Recent Snowstorm," dated February 12, 2010.*

SUPPLEMENTARY INFORMATION:

Background

Section 101(a)(5)(D) of the MMPA (16 U.S.C. 1371 (a)(5)(D)) directs the Secretary of Commerce to authorize, upon request, the incidental, but not intentional, taking of small numbers of marine mammals of a species or stock, for periods of not more than one year, by United States citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region if certain findings are made and, if the taking is limited to harassment, a notice of a proposed authorization is provided to the public for review.

Authorization for incidental taking of small numbers of marine mammals shall be granted if NMFS finds that the taking will have a negligible impact on the species or stock(s), and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. The authorization must set forth the permissible methods of taking, other means of effecting the least practicable adverse impact on the species or stock and its habitat, and monitoring and reporting of such takings. NMFS has defined "negligible impact" in 50 CFR 216.103 as "an impact resulting from the specified activity that cannot be reasonably expected to, and is not reasonably likely to, adversely affect the species or stock through effects on annual rates of recruitment or survival."
