SUPPLEMENTARY INFORMATION:

A. Purpose

The collection of new information is in compliance with section 872 of the Duncan Hunter National Defense Authorization Act of 2009 (Pub. L. 110-417), enacted on October 14, 2008. Section 872 of the Act requires the General Services Administration (GSA) to develop and maintain a database containing specific information on the integrity and performance of covered Federal agency contractors and grantees.

Section 872 defines a covered person as any person awarded a Federal agency contract or grant in excess of \$500,000 and any person awarded "such other category or categories of Federal agency contract as the FAR may provide * * *". Information to be included in the data system is listed in section 872 and must cover the most recent five-year period for—

i. Each civil or criminal proceeding, or any administrative proceeding in connection with the award or performance of a contract or grant with the Federal government during the period when the proceeding results in one or more of the following:

A. A criminal proceeding resulting in a conviction.

B. A civil proceeding resulting in a finding of fault and liability that results in payment of a monetary amount of \$5,000 or more.

C. An administrative proceeding resulting in a finding of fault and liability that results in payment of a monetary fine or penalty of \$5,000 or more; or payment of a monetary reimbursement, restitution, or damages in excess of \$100,000.

D. A disposition of the matter by consent or compromise with an acknowledgment of fault by the covered person if the proceeding could have led to any of the outcomes specified in subparagraphs A, B, or C above.

ii. Each Federal contract and grant awarded to the person that was terminated due to default.

iii. Each Federal administrative agreement entered into between the person and the Federal Government to resolve a suspension or debarment proceeding.

iv. Each final finding by a Federal official that the person has been determined not to be a responsible source pursuant to subparagraph (C) or (D) of section 4(7) of the OFPP Act (41 U.S.C.403(7)).

v. Such other information as shall be provided for purposes of this section in the FAR.

vi. To the maximum extent practical, information similar to that mentioned in subparagraphs I, ii, and iii, in connection with the award or performance of a contract or grant with a State Government.

A new solicitation provision has been developed for inclusion in solicitations expected to result in a contract of \$500,000 or more. A new provision (FAR 52.209-XX, Information Regarding Responsibility Matters) will require each offeror to check a box indicating whether it has, or has not, current Federal Government contracts and grants totaling \$10,000,000 or more. If the offeror checks the box indicating that it does not currently have contracts and grants of at least \$10,000,000, that is the extent of the information collection. If, however, the offeror checks the box indicating that it does currently have contracts and grants of at least \$10,000,000, and the offeror has not updated its Central Contactor Registration (CCR) database in the last

six months, then the offeror is obligated to go to the CCR web site and enter the following information:

“52.209-XX (c)

(1) (i) Whether the offeror, and/or any of its principals, has or has not, within the last five years, been involved in a civil or criminal proceeding, or any administrative proceeding, in connection with the award to or performance by the offeror of a Federal or State contract or grant, to the extent that such proceeding resulted in any of the following dispositions:

(A) In a criminal proceeding, a conviction.

(B) In a civil proceeding, a finding of fault and liability that results in the payment of a monetary fine, penalty, reimbursement, restitution, or damages of \$5,000 or more.

(C) In an administrative proceeding, a finding of fault and liability that results in—

(1) The payment of a monetary fine or penalty of \$5,000 or more; or

(2) The payment of a reimbursement, restitution, or damages in excess of \$100,000.

(D) To the maximum extent practicable and consistent with applicable laws and regulations, in a criminal, civil, or administrative proceeding, a disposition of the matter by consent or compromise with an acknowledgment of fault by the Contractor if the proceeding could have led to any of the outcomes specified in subparagraphs (i), (ii), or (iii).

(ii) If the offeror checked “has” to the information request in (b)(1)(i), the offeror shall provide the requested information with regard to each occurrence.”

In addition, the final rule includes a new clause that requires Contractors to semi-annually update of the information in Federal Awardee Performance and Integrity Information Systems (FAPIS).

The final rule requires for every solicitation of \$500,000 or more that the offeror respond whether it has, or has not, current contracts and grants under performance that total at least \$10,000,000. Only if the offeror responds affirmatively is there any further information collection requirement. Given that the amount of current Federal contracts and grants is basic knowledge for any firm, the estimated number of hours for this initial response is 0.1 hours. Using data from the Federal Procurement Data System—Next Generation (FPDS-NG), we estimate that there will be approximately 12,000–14,000 contracts over \$500,000 each year. Estimating between five and six responses to each solicitation, then believe there will be 80,000 responses annually to the “has/has not” question.

We expect that 5,000 contractors will answer the first question affirmatively and then will have to enter data into the website. We have used a burden estimate of 0.5 hours to enter the company’s data into the website. This time estimate does not include the time

necessary to maintain the company’s information internally. Most large businesses and some small businesses probably have established systems to track compliance. At this time, all or most Government contractors have entered relevant company data in the Central Contractor Registration (CCR) in accordance with another information collection requirement. Therefore, the estimate includes an average of 100 hours per year for recordkeeping for each of the 5,000 respondents to the request for additional information, for a total of 500,000 annual recordkeeping hours.

Annual Reporting Burden

Initial response:

Respondents	8,000
Responses per respondent	× 10
Total annual responses	80,000
Total response burden hours	8,000

Additional response:

Total annual responses	10,000
Total response burden hours	5,000
Recordkeeping hours	500,000
Total burden hours	505,000

Obtaining Copies of Proposals:

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (MVCB), 1800 F Street, NW., Room 4041, Washington, DC 20405, telephone (202) 501-4755.
