

Determinations is ordered to be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: For further information, including a description of the exhibit object, contact Carol B. Epstein, Attorney-Adviser, Office of the Legal Adviser, U.S. Department of State (telephone: 202/632-6473). The address is U.S. Department of State, SA-5, L/DP, Fifth Floor, Washington, DC 20522-0505.

Dated: March 3, 2010.

Maura M. Pally,

Deputy Assistant Secretary for Professional and Cultural Exchanges, Bureau of Educational and Cultural Affairs, Department of State.

[FR Doc. 2010-5266 Filed 3-10-10; 8:45 am]

BILLING CODE 4710-05-P

DEPARTMENT OF STATE

[Public Notice 6918]

Waiver of Restriction on Assistance to Cambodia

Pursuant to section 7086(c)(2) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010 (Division F, Pub. L. 111-117) ("the Act"), and Department of State Delegation of Authority Number 245-1, I hereby determine that it is important to the national interest of the United States to waive the requirements of section 7086(c)(1) of the Act with respect to the Government of Cambodia, and I hereby waive such restriction.

This determination shall be reported to the Congress, and published in the **Federal Register**.

Dated: March 1, 2010.

Jacob J. Lew,

Deputy Secretary for Management and Resources.

[FR Doc. 2010-5261 Filed 3-10-10; 8:45 am]

BILLING CODE 4710-30-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA-2010-0022]

Agency Information Collection Activities: Notice of Request for Extension of Currently Approved Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA has forwarded the information collection request described

in this notice to the Office of Management and Budget (OMB) to renew an information collection. We published a **Federal Register** Notice with a 60-day public comment period on this information collection on December 16, 2009. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by April 12, 2010.

ADDRESSES: You may send comments within 30 days to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer. You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. All comments should include the Docket number FHWA-2010-0022.

FOR FURTHER INFORMATION CONTACT: Gye Aung, 202-366-2167, Office of Federal Lands Highway, Federal Highway Administration, Department of Transportation, East Building, Room E61 339, 1200 New Jersey Avenue, SE., Washington, DC 20590-0001.

SUPPLEMENTARY INFORMATION:

Title: Federal Lands Highway Program.

OMB Control #: 2125-0598.

Background: Title 23 U.S.C. 204 requires the Secretary of Transportation and the Secretary of each appropriate Federal land management agency to develop, to the extent appropriate, safety, bridge, pavement, and congestion management systems for roads funded under the Federal Lands Highway Program (FLHP). A management system is a process for collecting, organizing, and analyzing data to provide a strategic approach to transportation planning, program development, and project selection. Its purposes are to improve transportation system performance and safety, and to develop alternative strategies for enhancing mobility of people and goods. This data collection clearance addresses the management systems for the National Park Service (NPS) and the Park Roads and Parkways (PRP) Program; Bureau of Indian Affairs (BIA) and the Indian Reservation Roads (IRR) Program; Fish and Wildlife Service (FWS) and the Refuge Roads

(RR) Program; and Forest Service (FS) and the Forest Highway (FH) Program.

Outputs from the management systems are important tools for the development of transportation plans and transportation improvement programs, and in making project selection decisions consistent with 23 U.S.C. 204. Further, management system outputs also provide important information to the FHWA for their stewardship and oversight roles for the Park Roads and Parkways, Indian Reservation Roads, Refuge Roads, and Forest Highway Programs. The data collection required to implement these management systems supports the DOT Strategic Plan. The proposed data collection also directly supports the FHWA's Initiatives of Safety, Congestion Mitigation, and Environmental Stewardship and Streamlining that represent the three important strategic planning and performance goals for the agency.

The National Park Service, Bureau of Indian Affairs, Fish and Wildlife Service, and Forest Service are continuing to implement the required management systems and the associated information collections. Completion of this phase-in of the management systems is expected to occur during the time period covered by this information collection, and the average annual burden estimates are based on expected increases in the overall burden over that time period. The management systems vary in complexity among the four agencies and reflect differences in the characteristics of the transportation systems involved such as size, ownership, and eligibility for inclusion in the program. These variations result in differences among the agencies in the expected number of respondents to the information collection, and in the anticipated time necessary to respond to the information collection.

Typical information that might be collected for the management systems includes:

- Traffic information including volumes, speeds, and vehicle classification;
- Pavement features such as number of lanes, length, width, surface type, functional classification, and shoulder information; and pavement condition information such as roughness, distress, rutting, and surface friction;
- Bridge features such as deck width, under/over-clearance, details of structural elements such as girders, joints, railings, bearings, abutments, and piers; and information on the condition of the bridge elements sufficient to describe the nature, extent, and severity of deterioration;

- Safety information such as crash records, crash rates, and an inventory of safety appurtenances such as signs and guardrails; or

- Congestion measures such as roadway level of service or travel delay.

Respondents to the information collection might be collecting and submitting information in one or more of these categories for the portion of their transportation system that is covered under the FLHP. For example, this might include the collection and submission of these types of information for State or county-owned roads that are Forest Highways or Indian Reservation Roads owned by Indian Tribal Governments. Typically, the respondents would collect information each year on a portion of their system. Burden estimates have been developed using this assumption combined with an estimate of the time needed to collect and provide the information.

Respondents: The estimated average annual number of respondents for the management systems for each of the agencies addressed by this information collection is:

NPS management systems—35 States and 40 Metropolitan Planning Organizations (MPOs), regional transportation planning agencies, counties, local or tribal governments.

BIA management systems—35 States and 50 MPOs, regional transportation planning agencies, counties, local or tribal governments.

FWS management systems—35 States and 40 MPOs, regional transportation planning agencies, counties, local or tribal governments.

FS management systems—35 States and 50 MPOs, regional transportation planning agencies, counties, local or tribal governments.

Frequency: Annual.

Estimated Average Annual Burden per Response:

NPS management systems—Approximately 40 hours per respondent.

BIA management systems—Approximately 60 hours per respondent.

FWS management systems—Approximately 20 hours per respondent.

FS management systems—Approximately 60 hours per respondent.

Estimated Total Annual Burden Hours: Total estimated average annual burden is 14,700 hours.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On: March 5, 2010.

Juli Huynh,

Chief, Management Programs and Analysis Division.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA-2010-0021]

Agency Information Collection Activities: Notice of Request for Extension of Currently Approved Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: The FHWA has forwarded the information collection request described in this notice to the Office of Management and Budget (OMB) to renew an information collection. We published a **Federal Register** Notice with a 60-day public comment period on this information collection on December 16, 2009. We are required to publish this notice in the **Federal Register** by the Paperwork Reduction Act of 1995.

DATES: Please submit comments by April 12, 2010.

ADDRESSES: You may send comments within 30 days to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer. You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burden; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. All comments should include the Docket number FHWA-2010-0021.

FOR FURTHER INFORMATION CONTACT: Ken Epstein, 202-366-2157, Office of Safety Design, Federal Highway Administration, Department of Transportation, East Building, Room E71-113, 1200 New Jersey Avenue, SE., Washington, DC 20590.

SUPPLEMENTARY INFORMATION:

Title: Developing and Recording Costs for Railroad Adjustments.

OMB Control Number: 2125-0521.

Background: Under 23 U.S.C. 130, the FHWA reimburses the State highway agencies when they have paid for the cost of projects that (1) eliminate hazards at railroad/highway crossings, or (2) adjust railroad facilities to accommodate the construction of highway projects. The FHWA requires the railroad companies to document their costs incurred for adjusting their facilities. The railroad companies must have a system for recording labor, materials, supplies, and equipment costs incurred when undertaking the necessary railroad work. This record of costs forms the basis for payment by the State highway agency to the railroad company, and in turn FHWA reimburses the State for its payment to the railroad company.

Respondents: Approximately 135 railroad companies are involved in an average of 10 railroad/highway projects per year, total frequency is 1,350 railroad adjustments.

Frequency: Annually.

Estimated Average Burden per Response: The average number of hours required to calculate the railroad adjustment costs and maintain the required records per adjustment is 12 hours.

Estimated Total Annual Burden Hours: The FHWA estimates that the total annual burden imposed on the public by this collection is 16,200 hours.

Authority: 23 U.S.C. 121, 130; 23 CFR 140 Subpart I; the Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued On March 5, 2010.

Juli Huynh,

Chief, Management Programs, and Analysis Division.
