

existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Commercial and industrial solid waste incineration units.

Estimated Number of Respondents: 31

Frequency of Response: Initially, occasionally, semiannually, and annually.

Estimated Total Annual Hour Burden: 11,246

Estimated Total Annual Cost: \$1,029,921, which includes \$1,021,351 in labor costs, \$2,240 in capital/startup costs, and \$6,330 in operation and maintenance (O&M) costs.

Changes in the Estimates: There are no changes in the estimates. This is due to two considerations. First, the regulations have not changed over the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the industry is very low, negative or non-existent. Therefore, the burden hour figures in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR. It should be noted that there are some minor corrections due to calculations errors in the previous ICR.
