SUPPLEMENTARY INFORMATION:

Background

In 1984, the Congress enacted amendments to the Defense Production Act (DPA), including the addition of section 309, which addresses offsets in defense trade (*See* 50 U.S.C. app. § 2099). Offsets are compensation practices required as a condition of purchase in either government-to-government or commercial sales of defense articles and/or defense services, as defined by the Arms Export Control Act and the International Traffic in Arms Regulations.

Section 309(a)(1) requires the President to submit an annual report to the Congress on the impact of offsets on the U.S. defense industrial base. In 1992, section 309 was amended to direct the Secretary of Commerce (Secretary) to function as the President's executive agent for carrying out the responsibilities set forth in that section. Specifically, section 309 authorizes the Secretary to develop and administer the regulations necessary to collect offsets data from U.S. defense exporters.

The authorities of the Secretary regarding offsets have been redelegated to the Under Secretary of the Bureau of Industry and Security (BIS). The regulations associated with offsets reporting are set forth in Part 701 of title 15 of the Code of Federal Regulations. The offsets regulations of Part 701 set forth the obligations of U.S. industry to report to BIS, no later than June 15 of each year, offsets agreement and transaction data for the previous calendar year.

As described in section 701.1 of the regulations, U.S. firms are required to report on contracts for the sale of defense-related items or defense-related services to foreign countries or foreign

firms that are subject to offsets agreements exceeding \$5,000,000 in value. U.S. firms are also required to report annually on offsets transactions completed in performance of existing offsets commitments for which offsets credit of \$250,000 or more has been claimed from the foreign representative. The required data elements and filing procedures for such reports are outlined in section 701.4 of title 15, Code of Federal Regulations. Please note that on December 23, 2009, BIS published a final rule to amend Part 701 (74 FR 68136). Companies are required to incorporate the changes made to the required data elements by this final rule in their submissions to BIS this year.

The Department's annual report to Congress includes an aggregated summary of the data reported by industry in accordance with the offsets regulation and the DPA. As provided by section 309(c) of the DPA, BIS will not publicly disclose the information it receives through offsets reporting unless the firm furnishing the information specifically authorizes public disclosure. The information collected is sorted and organized into an aggregate report of national offsets data, and therefore does not identify company-specific information.

Required information must be submitted to BIS no later than June 15, 2010.

Dated: March 15, 2010.

Kevin J. Wolf,

Assistant Secretary for Export Administration.
