SUPPLEMENTARY INFORMATION: As a result of a court order (U.S. District Court, Northern District of California), dated September 26, 2006, Case No. C-03-2509 SI, the BLM has prepared the Draft RAMP/EIS for the ISDRA and associated plan amendment to the CDCA.

The ISDRA project area encompasses approximately 200,000 acres of lands, approximately 150,000 acres of which are public lands bounded to the west by the Old Coachella Canal, to the east by the Union Pacific Railroad, to the north by Mammoth Wash, and to the south by Interstate 8 and the California/Mexico border. The primary activities in the ISDRA include off-highway vehicle use and camping. The Draft RAMP/EIS has been developed through a collaborative planning process and considers eight alternatives. Issues addressed in the Draft RAMP/EIS include: Recreation; transportation and public access; wildlife and botany; cultural resources and paleontology; renewable energy; water resources; geology and soils; mineral resources; socioeconomics; public health and safety; and visual resources.

The Draft RMP/EIS also considers the designation of two Areas of Critical Environmental Concern (ACEC), Plank Road and East Mesa. The preferred alternative would continue the 298-acre Plank Road ACEC to protect cultural resources and other resources values identified in the Draft RAMP/EIS. The preferred alternative would reduce the East Mesa ACEC from 6,454 acres to 5,799 acres, which overlaps the Planning Area. The East Mesa ACEC would continue to protect biological resources and other resource values identified in the Draft RAMP/EIS. The acreage of this ACEC varies by alternative. The preferred alternative would also remove the North Algodones Dunes ACEC, which encompasses 25,756 acres, in order to remove conflicting management prescriptions between this ACEC and the North Algodones Dunes Wilderness Area. Limitations on use of public lands

within the Plank Road ACEC include restrictions on wind and solar energy development, as well as geothermal leasing. Limitations on use of public lands within the East Mesa ACEC include restrictions on wind and solar energy development, as well as geothermal leasing that includes surface occupancy.
