SUPPLEMENTARY INFORMATION:

A. Need For and Use of the Information Collection

Section 6 of the Federal Home Loan Bank Act (Bank Act) establishes the capital structure for the Federal Home Loan Banks (Banks) and requires FHFA to issue regulations prescribing uniform capital standards applicable to each Bank.¹ Parts 930, 931, 932, and 933 of title 12, Code of Federal Regulations implement the statutory capital structure for the Banks. Part 930 establishes definitions applicable to risk management and the capital regulations; part 931 concerns Bank capital stock; part 932 establishes Bank capital requirements; and part 933 sets forth the requirements for Bank capital structure plans. The provisions of part 931 provide that a Bank must require its members to maintain a minimum investment in the capital stock of the Bank as a condition to becoming and remaining a member of the Bank and as a condition to transacting business with the Bank or obtaining advances from the Bank. The amount of the required minimum investment is determined in accordance with the Bank's capital plan under part 933.

The Banks use the information collection to determine the amount of capital stock a member must purchase to maintain membership in and to obtain services from a Bank. More specifically, the provisions of §§ 931.3 and 933.2(a) authorize a Bank to offer its members several options to satisfy a membership investment in capital stock and an activity-based stock purchase requirement. The information collection is necessary to provide the Banks with the flexibility to meet the statutory and regulatory capital structure requirements while allowing Bank members to choose the option best suited to their business requirements.

The OMB number for the information collection is 2590-0002. The OMB clearance for the information collection expires on July 31, 2010. The likely respondents include Banks and Bank members.

B. Burden Estimate

FHFA estimates the total annual average number of activity-based stock purchase requirement respondents at 5,813, with 4 responses per respondent. The estimate for the average hours per response is 20 hours. The estimate for the annual hour burden for activity-based stock purchase requirement

respondents is 465,040 hours (5,813 activity-based respondents × 4 responses per respondent × 20 hours per response).

FHFA estimates the total annual average number of membership investment in capital stock respondents at 8,106, with 4 responses per respondent. The estimate for the average hours per response is 10 hours. The estimate for the annual hour burden for membership investment in capital stock respondents is 324,240 hours (8,106 membership investment respondents × 4 responses per respondent × 10 hours per response).

The estimate for the total annual hour burden for all respondents is 789,280 hours.

C. Comment Request

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA's estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Dated: March 22, 2010.

Edward J. DeMarco,

Acting Director, Federal Housing Finance Agency.

Proposed Project: Evaluation of Office for Human Research Protections Outreach Pamphlet on Public

Participation in Research—Office for Human Research.

Abstract: This evaluation project addresses the Office for Human Research Protection’s need for the evaluation of an informational outreach pamphlet, “Becoming a Research Participant: It’s Your Decision,” to educate the general public about factors to consider in their choice to participate or not participate in research. The evaluation is particularly important for the development and efficient distribution of future educational material. Participants in this survey will be members of the research community, broadly defined, including members of the human research protections community, who received the pamphlet for distribution by their organizations. The survey will collect a small amount of descriptive information regarding the research setting, how the institution utilized the pamphlet, the impact of the pamphlet’s appearance and content, and to a brief degree, if and how the pamphlet had an effect on research participation.
