## **CORPORATION FOR NATIONAL AND COMMUNITY SERVICE**

### **Proposed Information Collection; Comment Request**

**AGENCY:** Corporation for National and Community Service.

**ACTION:** Notice.

**SUMMARY:** The Corporation for National and Community Service (hereinafter the "Corporation"), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. Sec. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of the collection requirement on respondents can be properly assessed.

Currently, the Corporation is soliciting comments concerning its proposed renewal of "Application for the President's Higher Education Community Service Honor Roll" which will involve the collection of information from institutions of higher education concerning community service activities and will provide the basis for the national honor roll and

awards program. Each year the Honor Roll program includes a Special Focus Area that awards excellence in a specific category of community service work. This Special Focus Area will fall within the Administration's and Edward M. Kennedy Serve America Act's (Pub. L. 111-13) national service priorities: Education, health, clean energy, veteran and economic opportunity.

Copies of the information collection requests can be obtained by contacting the office listed in the addresses section of this notice.

**DATES:** Written comments must be submitted to the individual and office listed in the **ADDRESSES** section by June 1, 2010.

### **Background**

The President's Higher Education Community Service Honor Roll program is designed to identify and reward exemplary higher education community service programs and practices. This program helps fulfill the Corporation's strategic goals of engaging Americans, particularly millions of college students, in service, and ensuring that all higher education institutions provide, or stimulate the creation of resources to coordinate service, service-learning, and community partnerships. Beginning with the fifth year of the Honor Roll program, the application will include a special focus area that will highlight the national service priorities of the Administration and the Edward M. Kennedy Serve America Act, by encouraging higher education institutions' efforts to tackle priorities ranging from increasing high school graduation rates to fostering economic opportunity.

### **Current Action**

The Corporation seeks to renew the current information collection. The Corporation is making the following changes to the application and guidance for two reasons. First, to better align the program with the current Administration's goals for service, (i.e., measuring the impact of service in the community, strengthening of civic infrastructures, and building the capacities of nonprofits) the focus of the application is moving away from individual project descriptions toward institutional and long-term support of community service. The Corporation is also revising the Special Focus area competition to align with the current Administration's and Edward M. Kennedy Serve America Act's national service priorities.

*Second*, as a result of feedback from respondents from the higher education field, we are reducing the number of project descriptions within the application and instructing applicants to align their project/program descriptions to their institution's overall support for community service. These changes will reduce the number of project/program descriptions from five to three but will include expanded opportunity for applicants to demonstrate the connection of this service to their larger institutional commitment to service, and the impact

of this service in the targeted community.

The information collection will otherwise be used in the same manner as the existing application. The current application is due to expire on June 30, 2010.

*Type of Review:* Renewal.

### Background

The Learn and Serve America Program supports efforts in schools, higher education institutions, and community-based organizations to involve young people in meaningful service to their communities while improving academic, civic, social, and career-related skills. The Learn and Serve program is administered by the Corporation for National and Community Service and is funded through grants to states, national organizations, and institutions of higher education, and through them to individual schools, local education agencies, community-based organizations, and colleges and universities. Approximately 1,800 organizations receive Learn and Serve funding each year and report on their Learn and Serve-funded activities through the Learn and Serve America Programs and Performance Reporting System. All data is collected electronically and accessed via the Web site, <http://www.lsareports.org>.

### Current Action

The Corporation seeks to renew the current information collection. The system collects annual data from those organizations that receive Learn and Serve America grants and subgrants. Data collected includes information on the scope and structure of service-learning activities funded through the grants; participants and hours; community partnerships; and institutional policies and practices that support service-learning. Minor modifications and adjustments will be made for the renewal to accommodate changes resulting for the Edward M. Kennedy Serve America Act (2009) and to minimize burden, improve reliability, and streamline reporting.

The information collection will otherwise be used in the same manner as the existing application. The Corporation also seeks to continue using
