II. Background on the Receipt of Requests to Cancel

This notice announces receipt by EPA of requests from registrants to cancel MSMA product registrations. MSMA is an organic arsenical used as a herbicide for application to cotton, golf courses, sod farms, highway rights of ways, bearing and non-bearing fruit trees, athletic fields, parks, and residential lawns among other sites. In letters received by the Agency, the registrants have requested EPA to cancel affected product registrations identified in this notice in Table 1. Specifically, the registrants' have requested voluntary cancellation of all their products containing MSMA. The registrants requests will not terminate the last MSMA products registered in the United States.

III. What Action is the Agency Taking?

This notice announces receipt by EPA of requests from registrants to cancel MSMA product registrations. The affected products and the registrants making the requests are identified in Tables 1 and 2 of this unit.

Under section 6(f)(1)(A) of FIFRA, registrants may request, at any time, that their pesticide registrations be canceled or amended to terminate one or more pesticide uses. Section 6(f)(1)(B) of FIFRA requires that before acting on a request for voluntary cancellation, EPA must provide a 30-day public comment period on the request for voluntary cancellation or use termination. In addition, section 6(f)(1)(C) of FIFRA requires that EPA provide a 180-day comment period on a request for voluntary cancellation or termination of any minor agricultural use before granting the request, unless:

1. The registrants request a waiver of the comment period, or
2. The Administrator determines that continued use of the pesticide would pose an unreasonable adverse effect on the environment.

The MSMA registrants have requested that EPA waive the 180-day comment period. EPA will provide a 30-day comment period on the proposed requests.

Unless a request is withdrawn by the registrant within 30 days of publication of this notice, or if the Agency determines that there are substantive comments that warrant further review of

this request, an order will be issued canceling the affected registrations.

VI. Provisions for Disposition of Existing Stocks

Existing stocks are those stocks of registered pesticide products which are currently in the United States and which were packaged, labeled, and released for shipment prior to the effective date of the cancellation action.

In any order issued in response to these requests for cancellation of product registrations, EPA proposes to include the following provisions as outlined in the organic arsenicals Agreement in Principle for the treatment of any existing stocks of the products identified or referenced in Table 1 in Unit III.

After December 31, 2009, registrants were prohibited from selling or distributing existing stocks of products containing MSMA labeled for all uses, except cotton, sod farms, golf courses, and highway rights-of-way.

After December 31, 2010, existing stocks of products containing MSMA labeled for all uses, except cotton, sod farms, golf courses, and highway rights-of-way, already in the hands of users can be used legally until they are exhausted, provided that such use complies with the EPA-approved label and labeling of the affected product.

After December 31, 2012, registrants are prohibited from selling or distributing existing stocks of products containing MSMA labeled for use on sod farms, golf courses, and highway rights-of-way.

After June 30, 2013, persons other than registrants are prohibited from selling or distributing existing stocks of products containing MSMA labeled for use on sod farms, golf courses, and highway rights-of-way.

After December 31, 2013, use of products containing MSMA labeled for use on sod farms, golf courses, and highway rights-of-way, is prohibited.

If the request for voluntary cancellation is granted, the Agency intends to publish the cancellation order in the **Federal Register**.
