Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)

Notice is hereby given that on March 31, 2010, a proposed Consent Decree ("Decree") in *United States v. Honeywell International Inc.*, Civil Action No. 1:10CV203, was lodged with the United States District Court for the Southern District of Ohio.

In this action the United States, on behalf of the U.S. Environmental Protection Agency ("U.S. EPA"), sought cost recovery and injunctive relief against Honeywell International Inc. relating to the third operable unit ("OU3") of the Allied Chemical and Ironton Coke Superfund Site ("Site") in Ironton, Ohio, under the Comprehensive Environmental Response, Compensation and Liability Act of 1980. Under the Decree, which resolves these claims, Defendant Honeywell will pay all interim and future response costs not inconsistent with the National Contingency Plan relating to OU3 and will perform the remedy for OU3 at the Site. The remedy for OU3, which is the final remedy for the Site, pertains to the former Tar Plant area of the Site, and calls for covering contaminated soil at OU3 with a cap that complies with Ohio solid waste regulations; controls to ensure the cap remains intact and thereby protects people from remaining contaminated soil and soil vapor; and a combination of dredging, off-site disposal and/or capping of contaminated sediment in the Ohio River adjacent to the Tar Plant's loading dock.

NATIONAL SCIENCE FOUNDATION

Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Science Foundation.
ACTION: Notice.

SUMMARY: Under the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed information collection.

DATES: Written comments on this notice must be received by June 11, 2010 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be

addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Room 295, Arlington, VA 22230, or by e-mail to splimpton@nsf.gov.

FOR FURTHER INFORMATION CONTACT: Suzanne Plimpton on (703) 292-7556 or send e-mail to splimpton@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: Antarctic emergency response plan and environmental protection information.

OMB Approval Number: 3145-0180.

Expiration Date of Approval: August 31, 2010.

Abstract: The NSF, pursuant to the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 *et seq.*) ("ACA") regulates certain non-governmental activities in Antarctica. The ACA was amended in 1996 by the Antarctic Science, Tourism, and Conservation Act. On September 7, 2001, NSF published a final rule in the **Federal Register** (66 FR 46739) implementing certain of these statutory amendments. The rule requires non-governmental Antarctic expeditions using non-U.S. flagged vessels to ensure that the vessel owner has an emergency response plan. The rule also requires persons organizing a non-governmental expedition to provide expedition members with information on their environmental protection obligations under the Antarctic Conservation Act.

Expected Respondents. Respondents may include non-profit organizations and small and large businesses. The majority of respondents are anticipated to be U.S. tour operators, currently estimated to number twelve.

Burden on the Public. The Foundation estimates that a one-time paperwork and recordkeeping burden of 40 hours or less, at a cost of \$500 to \$1,400 per respondent, will result from the emergency response plan requirement contained in the rule. Presently, all respondents have been providing expedition members with a copy of the Guidance for Visitors to the Antarctic (prepared and adopted at the Eighteenth Antarctic Treaty Consultative Meeting as Recommendation XVIII-1). Because this Antarctic Treaty System document satisfies the environmental protection information requirements of the rule, no additional burden shall result from the environmental information requirements in the proposed rule.

Dated: April 7, 2010.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.
