DEPARTMENT OF EDUCATION**Office of Elementary and Secondary Education; Overview Information; Enhanced Assessment Instruments Grants Program—Enhanced Assessment Instruments; Notice Inviting Applications for New Awards for Fiscal Year (FY) 2009 Funds**

Catalog of Federal Domestic Assistance (CFDA) Number: 84.368A.

DATES: *Applications Available:* April 12, 2010.

Deadline for Transmittal of Applications: May 27, 2010.

Full Text of Announcement**I. Funding Opportunity Description**

Purpose of Program: The purpose of this program is to enhance the quality and validity of assessment instruments and systems used by States for measuring the achievement of all students. The grant funds may be used for the development of new assessment products or procedures, such as innovative test formats, empirical analysis of variations in test formats or procedures, or statistical models useful for combining data from multiple measures, or charting student progress over time.

Background: In addition to this competition, the Department recently announced that it will use approximately \$350 million under the Race to the Top Fund for a Race to the Top Assessment program to award grants to consortia of States for the development of common, high-quality assessments aligned with an applicant consortium's common set of K-12 standards that are internationally benchmarked and that build toward college and career readiness by the time of high school completion. We plan to publish a notice inviting applications for that competition in the near future.

In addition, the Department intends to announce shortly a competition under the Individuals with Disabilities Education Act (IDEA) General Supervision Enhancement Grants (GSEG) program, inviting consortia of States to apply for support to develop common alternate assessments based on alternate academic achievement standards for students with the most significant cognitive disabilities who are eligible for such assessments. We encourage you to conduct a comprehensive review of these announcements and design your respective applications accordingly.

Priorities: This competition includes four absolute priorities and three competitive preference priorities. In accordance with 34 CFR 75.105(b)(2)(iv), the absolute priorities are based on those established in section 6112 of the Elementary and Secondary Education Act of 1965, as amended (ESEA) (20 U.S.C. 7301a). The competitive preference priorities are those established in Appendix E to the notice of final requirements for optional State consolidated applications submitted under section 9302 of the ESEA, published in the **Federal Register** on May 22, 2002 (67 FR 35967).

Absolute Priorities: For FY 2009 funds to be awarded through a competition conducted in 2010, these priorities are absolute priorities. Under 34 CFR

75.105(c)(3), we consider only applications that meet one or more of these priorities.

These priorities are:

Absolute Priority 1. Collaborate with institutions of higher education, other research institutions, or other organizations to improve the quality, validity, and reliability of State academic assessments beyond the requirements for these assessments described in section 1111(b)(3) of the ESEA.

Absolute Priority 2. Measure student academic achievement using multiple measures of student academic achievement from multiple sources.

Absolute Priority 3. Chart student progress over time.

Absolute Priority 4. Evaluate student academic achievement through the development of comprehensive academic assessment instruments, such as performance- and technology-based academic assessments.

Competitive Preference Priorities: Under 34 CFR 75.105(c)(2)(i), we award up to an additional 35 points to an application, depending on how well the application meets these competitive preference priorities.

For FY 2009 funds to be awarded through a competition conducted in 2010, these priorities are:

Competitive Preference Priority 1. Accommodations and alternate assessments (20 points). Applications that can be expected to advance practice significantly in the area of increasing accessibility and validity of assessments for students with disabilities or limited English proficiency, or both, including strategies for test design, administration with accommodations, scoring, and reporting.¹

Competitive Preference Priority 2. Collaborative efforts (10 points). Applications that are sponsored by a consortium of States.

Competitive Preference Priority 3. Dissemination (5 points). Applications that include an effective plan for dissemination of results.

Program Authority: 20 U.S.C. 7301a and 7842.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 80, 81, 82, 84, 85, 86, 97, 98, and 99. (b) The notice of final requirements published in the

¹ As noted above, the Department also intends to announce shortly a competition under the General Supervision Enhancement Grants (GSEG) program that will invite State consortia to apply for funding to support the development of common alternate assessments based on alternate academic achievement standards for students with the most significant cognitive disabilities.

To obtain an application package from the U.S. Department of Education use the following address: Collette Roney, Enhanced Assessment Grants Program, U.S. Department of Education, 400 Maryland Avenue, SW., room 3W210, Washington, DC 20202–6200. 2. *Content and Form of Application Submission:* Requirements concerning the content of an application, together with the forms you must submit, are in the application package for this competition. Page Limit: The application narrative (Part IV of the application) is where you, the applicant,

address the selection criteria that reviewers use to evaluate your application and the absolute and competitive preference priorities. You must limit the application narrative (Part IV) to the equivalent of no more than 40 pages, using the following standards:

- A “page” is 8.5” x 11”, on one side only with 1” margins at the top, bottom, and both sides.

- Double space (no more than three lines per vertical inch) all text in the application narrative, including titles, headings, footnotes, quotations, and captions, as well as all text in charts, tables, figures, and graphs.

- Use a font no smaller than 11.0 point for all text in the application narrative, including titles, headings, footnotes, quotations, and captions, as well as all text in charts, tables, figures, and graphs. (Font sizes that round up to 11, such as 10.7 point, will be considered as smaller than 11.0.)

- Any screen shots included as part of the application narrative should follow these standards or, if other standards are applied, be sized to equal the equivalent amount of space if these standards were applied.

The page limit does not apply to: The cover sheet or table of contents; Part I (including the response regarding research activities involving human subjects); Parts II and V (the budget sections, including the chart and narrative budget justification); Part III (one-page project abstract); Part VI (other attachments forms, including references for the application narrative, personnel résumés, letters of commitment and support, copy of indirect cost rate agreement, and indication in the list of ESEA Programs included in the Consolidated State Application); and Part VII (the assurances and certifications, including the General Education Provisions Act 427 response). Applicants are encouraged to limit each résumé to no more than 5 pages. The project narrative (Part IV) must include a discussion of how the application meets the absolute priorities, how well the application meets the competitive preference priorities, and how well the application addresses each of the selection criteria; therefore, the page limit applies to this discussion. The page limit also applies to any attachments to the project narrative other than references. In other words, the entirety of Part IV of the application, including the aforementioned discussion and any attachments to the narrative, must be limited to the equivalent of no more than 40 pages. Applicants should include in their applications only the

other attachments (Part VI) outlined in the application package. Additional attachments other than those included in the project narrative will not be accepted or reviewed.

Our reviewers will not read any pages of your application that exceed the page limit or exceed the equivalent of the page limit if you apply other standards.

We will not grant an extension for other technical problems unrelated to the unavailability of e-Application.

(2) A mail receipt that is not dated by the U.S. Postal Service.

If your application is postmarked after the application deadline date, we will not consider your application.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), the Department has developed four measures to evaluate the overall effectiveness of the Enhanced Assessment Instruments Grants program: (1) The number of States that participate in Enhanced Assessment Instruments Grants projects funded by this competition; (2) the percentage of grantees that, at least twice during the period of their grants, make available to SEA staff in non-participating States and to assessment researchers information on findings resulting from the Enhanced Assessment Instruments Grants through presentations at national conferences, publications in refereed journals, or other products disseminated to the assessment community; (3) for each grant cycle and as determined by an expert panel, the percentage of Enhanced Assessment Instruments Grants that yield significant research, methodologies, products, or tools regarding assessment systems or assessments; and (4) for each grant cycle

and as determined by an expert panel, the percentage of Enhanced Assessment Instruments Grants that yield significant research, methodologies, products, or tools specifically regarding accommodations and alternate assessments for students with disabilities and limited English proficient students. Grantees will be expected to include in their interim and final performance reports information about the accomplishments of their projects because the Department will need data on these measures.
