SUPPLEMENTARY INFORMATION: Recognizing the vital importance of the Internet to U.S. innovation, prosperity, education, and political and cultural life, the Department has made it a top priority to ensure that the Internet remains open for innovation. The Department has assembled a newly created Internet Policy Task Force (Task Force) whose mission is to identify leading public policy and operational challenges in the Internet environment. The Task Force leverages expertise across many bureaus, including those responsible for domestic and international information and communications technology policy, international trade, cybersecurity standards and best practices, intellectual property, business advocacy, and export control.

As part of the Task Force, NTIA and ITA are conducting a comprehensive review of the nexus between privacy

policy and innovation in the Internet economy, which will include the issuance of a notice of inquiry. To facilitate the review, on May 7, 2010, NTIA will hold a public meeting to discuss stakeholder views and to facilitate further public discussion on privacy policy in the United States. The event will seek participation and comment from all Internet stakeholders, including the commercial, academic, and civil society sectors, on the impact of current privacy laws in the United States and around the world on the pace of innovation in the information economy. A discussion of whether current privacy laws serve consumer interests and fundamental democratic values is also anticipated.

The agenda for the public meeting will be posted on NTIA's website at least one week prior to the meeting. This meeting will be webcast. The agenda and webcast information will be available on NTIA's website at www.ntia.doc.gov. Secretary of Commerce Gary Locke is scheduled to deliver keynote remarks. Also participating with remarks will be NTIA's Administrator and Assistant Secretary Lawrence Strickling, the Department of Commerce's General Counsel Cameron Kerry, and other U.S. Government officials.

Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The Pacific Fishery Management Council's (Pacific Council) Ad Hoc Salmon Amendment Committee (SAC) will hold a meeting to develop draft alternatives and plan analyses for an amendment to the Pacific Coast Salmon Fishery Management Plan (FMP) to address the Magnuson-Stevens Act (MSA) requirements for annual catch limits (ACL) and accountability measures (AM). This meeting of the SAC is open to the public.

DATES: The meeting will be held Thursday, May 6, 2010, from 9 a.m. to 4:30 p.m. and Friday, May 7, 2010, from 8:30 a.m. to 3 p.m.

ADDRESSES: The meeting will be held at the Pacific Council Office, Large Conference Room, 7700 NE Ambassador Place, Suite 101, Portland, OR 97220-1384; telephone: (503) 820-2280.

FOR FURTHER INFORMATION CONTACT: Mr. Chuck Tracy, Salmon Management Staff Officer, Pacific Fishery Management Council; telephone: (503) 820-2280.

SUPPLEMENTARY INFORMATION: The reauthorized MSA established new

requirements to end and prevent overfishing through the use of ACLs and AMs. Federal FMPs must establish mechanisms for ACLs and AMs by 2010 for stocks subject to overfishing and by 2011 for all others, with the exceptions of stocks managed under an international agreement or stocks with a life cycle of approximately one year.

On January 16, 2009, NMFS published amended guidelines for National Standard 1 (NS1) of the MSA to provide guidance on how to comply with new ACL and AM requirements. The NS1 guidelines include recommendations for establishing several related reference points to ensure scientific and management uncertainty are accounted for when management measures are established.

The purpose of this meeting is to develop alternatives to address those issues, and to plan analyses that will be used to evaluate those alternatives in a National Environmental Policy Act (NEPA) analysis.

Although non-emergency issues not contained in the meeting agenda may come before the SAC for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Ms. Carolyn Porter at (503) 820-2280 at least 5 days prior to the meeting date.

Dated: April 13, 2010.

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

Taking and Importing of Marine Mammals

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and

Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; affirmative finding.

SUMMARY: The Assistant Administrator for Fisheries, NMFS, (Assistant Administrator) has granted a request for an affirmative finding to the Government of Ecuador under the Marine Mammal Protection Act (MMPA). This affirmative finding will allow yellowfin tuna harvested in the eastern tropical Pacific Ocean (ETP) in compliance with the International Dolphin Conservation Program (IDCP) by Ecuadorian-flag purse seine vessels or purse seine vessels operating under Ecuadorian jurisdiction to be imported into the United States. The affirmative finding was based on review of documentary evidence submitted by the Government of Ecuador and obtained from the Inter-American Tropical Tuna Commission (IATTC) and the U.S. Department of State.

DATES: The affirmative finding is effective from April 1, 2010, through March 31, 2015, subject to annual review by NMFS.

FOR FURTHER INFORMATION CONTACT: Regional Administrator, Southwest Region, NMFS, 501 West Ocean Boulevard, Suite 4200, Long Beach, CA 90802-4213; phone 562-980-4000; fax 562-980-4018.

SUPPLEMENTARY INFORMATION: The MMPA, 16 U.S.C. 1361 *et seq.*, allows the entry into the United States of yellowfin tuna harvested by purse seine vessels in the ETP under certain conditions. If requested by the harvesting nation, the Assistant Administrator will determine whether to make an affirmative finding based upon documentary evidence provided by the government of the harvesting nation, the IATTC, or the Department of State.

The affirmative finding process requires that the harvesting nation is meeting its obligations under the IDCP and obligations of membership in the IATTC. Every 5 years, the government of the harvesting nation must request an affirmative finding and submit the required documentary evidence directly to the Assistant Administrator. On an annual basis, NMFS will review the affirmative finding and determine whether the harvesting nation continues to meet the requirements. A nation may provide information related to compliance with IDCP and IATTC measures directly to NMFS on an annual basis or may authorize the IATTC to release the information to NMFS to annually renew an affirmative
