The matter was consequently remanded to the Court of International Trade. On March 29, 2010, the Court of International Trade remanded the matter to the Commission, directing the Commission "to attempt to comply with the [Federal Circuit's] reasoning, as set forth in its foregoing, more recent opinion, and to report to this court any results of this mandated remand."

Participation in the proceeding.—Only those persons who were interested parties to the original investigation (*i.e.*, persons listed on the Commission Secretary's service list) and were parties to the underlying *Mittal* litigation may participate in the remand proceeding. Such persons need not re-file their appearance notices or protective order applications to participate in the remand proceeding. Business proprietary information ("BPI") referred to during the remand proceeding will be governed, as appropriate, by the administrative protective order issued in the original investigation.

Written submissions.—The Commission is not reopening the record in this remand proceeding. The Commission will permit the parties to file written comments. Comments should be limited to no more than twenty-five (25) double-spaced and single-sided pages of textual material, may not contain new factual information, and may address only the following issues within the scope of the remand: (1) whether the information in the record would support a determination of material injury or threat of material injury by reason of subject imports under the causation standard the Federal Circuit articulated in sections II.B. and C. of the *Mittal* opinion; and (2) whether wire rod is a "commodity product" pursuant to the standards the Federal Circuit has authorized the Commission to apply pursuant to section II.A. of the *Mittal* opinion. Any such comments must be filed with the Commission no later than May 7, 2010.

All written submissions must conform with the provisions of section 201.8 of

the Commission's rules; any submissions that contain BPI must also conform with the requirements of sections 201.6, 207.3, and 207.7 of the Commission's rules. The Commission's rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission's rules, as amended, 67 FR 68036 (Nov. 8, 2002).

In accordance with sections 201.16(c) and 207.3 of the Commission's rules, each document filed by a party to the investigation must be served on all other parties to the investigation (as identified by either the public or BPI service list), and a certificate of service must be timely filed. The Secretary will not accept a document for filing without a certificate of service.

Parties are also advised to consult with the Commission's Rules of Practice and Procedure, part 201, subparts A through E (19 CFR part 201), and part 207, subpart A (19 CFR part 207) for provisions of general applicability concerning written submissions to the Commission.

By order of the Commission.

Issued: April 20, 2010.

Secretary to the Commission.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Importer of Controlled Substances; Notice of Application

Pursuant to 21 U.S.C. 958(i), the Attorney General shall, prior to issuing a registration under this Section to a bulk manufacturer of a controlled substance in schedule I or II, and prior to issuing a regulation under 21 U.S.C. 952(a)(2) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore, in accordance with 21 CFR 1301.34(a), this is notice that on November 10, 2009, Mylan Pharmaceuticals Inc., 781 Chestnut Ridge Road, Morgantown, West Virginia

26505, made application by renewal to the Drug Enforcement Administration (DEA) to be registered as an importer of the basic classes of controlled substances listed in schedule II:

Drug	Schedule
Methylphenidate (1724)	II
Fentanyl (9801)	II
Oxycodone (9143)	II
Hydromorphone (9150)	II

The company plans to import the listed controlled substances in finished dosage form (FDF) from foreign sources for analytical testing and clinical trials in which the foreign FDF will be compared to the company’s own domestically-manufactured FDF. This analysis is required to allow the company to export domestically-manufactured FDF to foreign markets.

Any bulk manufacturer who is presently, or is applying to be, registered with DEA to manufacture such basic classes of controlled substances may file comments or objections to the issuance of the proposed registration and may, at the same time, file a written request for a hearing on such application pursuant to 21 CFR 1301.43, and in such form as prescribed by 21 CFR 1316.47.

Any such comments or objections should be addressed, in quintuplicate, to the Drug Enforcement Administration, Office of Diversion Control, Federal Register Representative (ODL), 8701 Morrisette Drive, Springfield, Virginia 22152; and must be filed no later than May 26, 2010.

This procedure is to be conducted simultaneously with, and independent of, the procedures described in 21 CFR 1301.34(b), (c), (d), (e), and (f). As noted in a previous notice published in the **Federal Register** on September 23, 1975, (40 FR 43745-46), all applicants for registration to import a basic class of any controlled substance in schedule I or II are, and will continue to be, required to demonstrate to the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration, that the requirements for such registration pursuant to 21 U.S.C. 958(a); 21 U.S.C. 823(a); and 21 CFR 1301.34(b), (c), (d), (e), and (f) are satisfied.

Dated: April 20, 2010.

Joseph T. Rannazzisi,
Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.
