**DEPARTMENT OF JUSTICE**

**Notice of Lodging of Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act ("CERCLA")**

Notice is hereby given that on December 22, 2010 a proposed consent decree ("proposed Decree") in *United States v. Alcoa, Inc., et al.*, C.A. No. 3:10-cv-532, was lodged with the United States District Court for the Northern District of Indiana.

In this action under Sections 106(a) and 107(a) of the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C. 9606(a) & 9607(a) ("CERCLA"), the United States and the State of Indiana seek to enjoin the Defendants to perform a remedial action to address an imminent and substantial endangerment to the public health, public welfare and the environment caused by actual or threatened releases of hazardous substances from the Cam-Or National Priorities List Site ("the Cam-Or Site") located in Westville, LaPorte County, Indiana, and to recover response costs that the United States and Indiana have incurred and will incur in the future at the Cam-Or Site. The proposed Decree requires the Settling Work Parties (Alcoa, Inc., ANR Pipeline Company, C. Stoddard & Sons, Inc., Clean Harbors Environmental Services, Inc., Consolidated Rail Corporation, CSX Transportation, Inc., Ford Motor Company, Imperial Oil Limited, Ingersoll-Rand Company, Northern Indiana Public Service Company, Rockwell Automation, Tennessee Gas Pipeline Company, and United States Steel Corporation) to construct and operate a soil containment system, to design, install, operate and maintain a groundwater pump and treat system, to

design, install, operate, and maintain a light non-aqueous phase liquid remediation system, to install and operate a monitoring system for the remedial action, and to develop and implement a plan for institutional controls at the Site.

Additionally, under the Consent Decree the Settling Work Parties have agreed to pre-pay \$2.2 million into a Site special account to be used for future oversight costs of the United States Environmental Protection Agency ("U.S. EPA"), and if and when such fund, plus interest, is depleted, to pay 50% of any additional U.S. EPA oversight costs. Further, under the Decree the Settling Work Parties have agreed to pay all of U.S. EPA's other future response costs; to pay all of the Indiana Department of Environmental Management's future oversight costs and other future response costs; and to pay \$200,000 toward approximately \$3.4 million in pre-entry unreimbursed response costs incurred by the United States. The Decree would provide covenants not to sue to the Settling Work Parties and, if they choose to sign the Consent Decree, to numerous other potentially responsible parties who have previously settled with one or more of the Settling Work Parties (listed in Appendix E to the Decree) and who received indemnification from such parties.

The Department of Justice will receive for a period of thirty (30) days from the date of this publication comments relating to the proposed Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and either emailed to [pubcomment-ees.enrd@usdoj.gov](mailto:pubcomment-ees.enrd@usdoj.gov) or mailed to P.O. Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. Alcoa, Inc., et al.*, D.J. Ref. 90-11-3-609/1.

The proposed Decree may be examined at the Office of the United States Attorney for the Northern District of Indiana, South Bend Division, 204 South Main Street, South Bend, Indiana 46601-2122, or the United States Environmental Protection Agency (Region 5) Records Center, Room 714, 77 West Jackson Boulevard, Chicago, Illinois 60604. **DEPARTMENT OF LABOR**

**Comment Request for Information Collection for Extension With Revisions**

**AGENCY:** Employment and Training Administration, Labor.

**ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. **SUPPLEMENTARY INFORMATION:**

*I. Background:* This document provides the justification for the request by the Department of Labor, Employment and Training Administration (ETA) for an extension with revisions of OMB-approved quarterly progress reporting requirements for the High Growth Job Training Initiative (HGJTI) grants and the Community-Based Job Training (CBJT) grants. The OMB-approved HGJTI and CBJTG quarterly progress reporting requirements, OMB No. 1205-1465, expire May 31, 2011. Through the extension with renewal request, ETA will require grantees to submit standardized quarterly progress reports summarizing the number and types of participants served by grantees, the number of exiters, the number of participants engaged in training activities, and some participant outcomes. To calculate the common performance measures for each grantee and the grant programs as a whole, ETA will also require grantees to submit quarterly standardized records for exiters that contain the minimum number of elements needed to calculate common performance measure outcomes. These progress reporting requirements align with outcome categories identified in the SGAs used to award HGJTI and CBJT grants. The collection of this data helps ETA report the impact of these funds and provides ETA with more comprehensive information on the status of individual grants and individuals that receive services and find employment through these grants. The accuracy, reliability, and comparability of program reports submitted by grantees using federal funds are fundamental elements of good public administration and are necessary tools for maintaining and demonstrating system integrity. The use of a standard set of data elements, definitions, and specifications at all levels of the workforce system, including the HGJTI and CBJT grants, helps improve the quality of performance information that is received by ETA. This data also helps ETA provide more targeted technical assistance to support improvement of grantee outcomes. ETA will continue to provide HGJTI and CBJT grantees with a reporting system, the Enterprise
