#### SUPPLEMENTARY INFORMATION:

**Background.**—On May 10, 1991, the Department of Commerce issued an antidumping duty order on imports of gray portland cement and cement clinker from Japan (56 FR 21658). Following first five-year reviews by Commerce and the Commission, effective November 15, 2000, Commerce issued a continuation of the antidumping duty order on imports of gray portland cement and cement clinker from Japan (65 FR 68979). Following second five-year reviews by Commerce and the Commission, effective June 16, 2006, Commerce issued a continuation of the antidumping duty order on imports of gray portland cement and cement clinker from Japan (71 FR 34892). The Commission is now conducting a third review to determine whether revocation of the order would be likely to lead to continuation or recurrence of material injury to the domestic industry within a reasonably foreseeable time. It will assess the adequacy of interested party responses to this notice of institution to determine whether to conduct a full review or an expedited review. The Commission's determination in any expedited review will be based on the facts available, which may include information provided in response to this notice.

**Definitions.**—The following definitions apply to this review:

(1) *Subject Merchandise* is the class or kind of merchandise that is within the scope of the five-year review, as defined by the Department of Commerce.

(2) The *Subject Country* in this review is Japan.

(3) The *Domestic Like Product* is the domestically produced product or products which are like, or in the absence of like, most similar in characteristics and uses with, the *Subject Merchandise*. In its original determination, its full first five-year review determination, and its expedited second five-year review determination, the Commission defined a single *Domestic Like Product* consisting of gray portland cement and cement clinker coextensive with Commerce's scope.

(4) The *Domestic Industry* is the U.S. producers as a whole of the *Domestic Like Product*, or those producers whose collective output of the *Domestic Like Product* constitutes a major proportion of the total domestic production of the product. In its original determination, the Commission defined the *Domestic Industry* as producers of gray portland cement and cement clinker, including “grinding only” operations. The Commission also concluded in its original determination, its full first five-year review determination, and its expedited second five-year review determination that appropriate circumstances existed for a regional industry analysis. In the original investigation, the Commission considered whether the Southern California region (defined as the counties of San Luis Obispo, Kern, Inyo, Mono, Santa Barbara, Ventura, Los Angeles, San Bernardino, Orange, Riverside, San Diego, and Imperial), as proposed by the petitioners, or a larger region, the State of California, was the appropriate region. In its original determination, the Commission determined that both regions satisfied the market isolation criteria but found the more appropriate region for its analysis was Southern California; one Commissioner found the regional industry to consist of producers in the State of California. In its full first five-year review determination, the Commission found that there had been integration of the Northern and Southern regions of California and defined the region as the State of California. The Commission also determined that the record in its expedited second five-year review supported a finding of a regional industry corresponding to the region of the State of California.

For purposes of this notice, you should report information separately on each of the following *Domestic Industries*: (1) Producers of gray portland cement and cement clinker, including “grinding only” operations, located in Southern California; (2) producers of gray portland cement and cement clinker, including “grinding only” operations, located in the State of California; and (3) producers of gray portland cement and cement clinker, including “grinding only” operations, located in the United States as a whole. Additionally, this notice uses the term *Domestic Market Area* to describe the area served by each *Domestic Industry*. Consequently, for purposes of this notice there are three *Domestic Market Areas*: (1) Southern California, (2) the State of California; (3) the United States.

(5) An *Importer* is any person or firm engaged, either directly or through a parent company or subsidiary, in importing the *Subject Merchandise* into the United States from a foreign manufacturer or through its selling agent.

*Participation in the review and public service list.*—Persons, including industrial users of the *Subject Merchandise* and, if the merchandise is sold at the retail level, representative consumer organizations, wishing to participate in the review as parties must file an entry of appearance with the Secretary to the Commission, as provided in section 201.11(b)(4) of the Commission’s rules, no later than 21 days after publication of this notice in the **Federal Register**. The Secretary will maintain a public service list containing the names and addresses of all persons, or their representatives, who are parties to the review.

Former Commission employees who are seeking to appear in Commission five-year reviews are advised that they may appear in a review even if they participated personally and substantially in the corresponding underlying original investigation. The Commission’s designated agency ethics official has advised that a five-year review is not considered the “same particular matter” as the corresponding underlying original investigation for purposes of 18 U.S.C. 207, the post employment statute for Federal employees, and Commission rule 201.15(b) (19 CFR 201.15(b)), 73 FR 24609 (May 5, 2008). This advice was developed in consultation with the Office of Government Ethics. Consequently, former employees are not required to seek Commission approval to appear in a review under Commission rule 19 CFR 201.15, even if the corresponding underlying original investigation was pending when they were Commission employees. For further ethics advice on this matter, contact Carol McCue Verratti, Deputy Agency Ethics Official, at 202–205–3088.

*Limited disclosure of business proprietary information (BPI) under an administrative protective order (APO) and APO service list.*—Pursuant to section 207.7(a) of the Commission’s rules, the Secretary will make BPI submitted in this review available to authorized applicants under the APO issued in the review, provided that the application is made no later than 21 days after publication of this notice in the **Federal Register**. Authorized applicants must represent interested parties, as defined in 19 U.S.C. 1677(9), who are parties to the review. A

separate service list will be maintained by the Secretary for those parties authorized to receive BPI under the APO.

*Certification.*—Pursuant to section 207.3 of the Commission’s rules, any person submitting information to the Commission in connection with this review must certify that the information is accurate and complete to the best of the submitter’s knowledge. In making the certification, the submitter will be deemed to consent, unless otherwise specified, for the Commission, its employees, and contract personnel to use the information provided in any other reviews or investigations of the same or comparable products which the Commission conducts under Title VII of the Act, or in internal audits and investigations relating to the programs and operations of the Commission pursuant to 5 U.S.C. Appendix 3.

*Written submissions.*—Pursuant to section 207.61 of the Commission’s rules, each interested party response to this notice must provide the information specified below. The deadline for filing such responses is June 1, 2011. Pursuant to section 207.62(b) of the Commission’s rules, eligible parties (as specified in Commission rule 207.62(b)(1)) may also file comments concerning the adequacy of responses to the notice of institution and whether the Commission should conduct an expedited or full review. The deadline for filing such comments is July 15, 2011. All written submissions must conform with the provisions of sections 201.8 and 207.3 of the Commission’s rules and any submissions that contain BPI must also conform with the requirements of sections 201.6 and 207.7 of the Commission’s rules. The Commission’s rules do not authorize filing of submissions with the Secretary by facsimile or electronic means, except to the extent permitted by section 201.8 of the Commission’s rules, as amended, 67 FR 68036 (November 8, 2002). Also, in accordance with sections 201.16(c) and 207.3 of the Commission’s rules, each document filed by a party to the review must be served on all other parties to the review (as identified by either the public or APO service list as appropriate), and a certificate of service must accompany the document (if you are not a party to the review you do not need to serve your response).

*Inability to provide requested information.*—Pursuant to section 207.61(c) of the Commission’s rules, any interested party that cannot furnish the information requested by this notice in the requested form and manner shall notify the Commission at the earliest possible time, provide a full explanation

of why it cannot provide the requested information, and indicate alternative forms in which it can provide equivalent information. If an interested party does not provide this notification (or the Commission finds the explanation provided in the notification inadequate) and fails to provide a complete response to this notice, the Commission may take an adverse inference against the party pursuant to section 776(b) of the Act in making its determination in the review.

*Information To Be Provided in Response to This Notice of Institution:* Please provide the requested information separately for each *Domestic Industry*, as previously defined in this notice, and, as applicable, its corresponding *Domestic Market Area*.
