

Upgrade Program account. NTIA will process applications received by the first business day of each month and will provide information monthly on the Upgrade Program Internet site regarding the amount of remaining funds available. In order to ensure that NTIA and the Grants Office complete processing of applications and issuing awards by September 30, 2012, NTIA must receive final Upgrade Program applications no later than 5 p.m., Eastern Time, July 2, 2012.

If NTIA or the Grants Office determines that an application submitted for the July 2, 2012, last Closing Date requires additional information, the applicant must provide the requested information within ten business days or NTIA will discontinue processing the application.

NTIA also announces that it will use population data from the newly available 2010 U.S. Census for applications received after July 1, 2011, in determining whether an application meets the statutory requirement to "upgrade low-power television stations from analog to digital *in eligible rural communities*."³ Applications submitted up to and including July 1, 2011, can continue to use the population reported in the 2000 Census to determine station eligibility.

After July 1, 2011, population figures from the 2000 Census will continue to be available on the Upgrade Program Web site, <http://www.ntia.doc.gov/lptv/Application/>, and may be used as a *preliminary* guide to determine eligibility. Almost all stations showing an NTIA-calculated population of significantly less than 20,000 using 2000 Census data should continue to be eligible for the Upgrade Program. NTIA will provide 2010 Census population figures for any facility that requests such information. Potential applicants may e-mail a request, which must include the FCC Facility ID number, to: ldyer@ntia.doc.gov. For applications submitted after July 1, 2011, applicants may also use the other methods of determining eligibility discussed in the Upgrade Program NOFA so long as those methods rely on 2010 Census data.

Upgrade Program staff remain available to assist potential applicants in complying with program requirements. All Upgrade Program instructions and forms remain available on the NTIA Internet site at <http://www.ntia.doc.gov/lptv>.

³ The Act at § 3009 (emphasis added). NTIA's interpretation and implementation of this requirement is discussed at length in the Upgrade Program NOFA.

Type of Review: New.

Title of Collection: Race to the Top Annual Performance Report.

OMB Control Number(s): 1894-NEW.

Frequency of Responses: Annually.

Affected Public: State, Local, or Tribal Government, State Educational Agencies or Local Educational.

Total Estimated Number of Annual Responses: 12.

Total Estimated Number of Annual Burden Hours: 1,452.

Abstract: In order to fulfill our responsibilities for programmatic oversight and public reporting, the Department has developed a Race to the Top Annual Performance Report that is tied directly to the Race to the Top selection programmatic requirements previously established and published in the **Federal Register**. The report is grounded in the key performance targets included in grantees' approved Race to the Top plans. Grantees will be required to report on their progress in the four core education reform areas: Science, Technology, Engineering, and Mathematics. This reporting includes narrative sections on progress and key performance indicators. As was the case in the completion of the Race to the Top applications, grantees will coordinate with Local Educational Agencies (LEAs) to collect and report on school and district-level data elements.

In order to robustly fulfill our programmatic and fiscal oversight responsibilities, it is essential that we gather this data from Race to the Top grantees and subgrantees as soon as possible to inform decision-making for the second year of the grant. The Race to the Top Annual Performance Report data will be used as a component of the comprehensive program review process (for which the comment period just closed). In particular, the data informs both a stocktake (meeting) with Race to the Top leadership that will be focused on assessing grantee progress and pinpointing areas requiring technical
