Title: Trends in Use and Users in the Boundary Waters Canoe Area Wilderness, Minnesota.

OMB Control Number: 0596-0208.

Summary of Collection: The Wilderness Act of 1964, Public Law 88-577 (Act) directs the National Wilderness Preservation System (System) be managed to preserve natural conditions and to provide outstanding opportunities for solitude or a primitive and unconfined type of recreation. The System administers wilderness for the use and enjoyment of the American people in such manner as will leave these areas unimpaired for future use and enjoyment as wilderness. The Act discourages the gathering and dissemination of information regarding the use and enjoyment of these areas as wilderness.

Need and Use of the Information: The data collected from this information collection request will update trend information for the Boundary Waters Canoe Area Wilderness in Minnesota. Managers of this Wilderness need to know and be able to inform the public, how visits (and visitors) have changed because of changing policies; natural disturbances; and national, regional, and local societal changes in 1990's and early 21st century. Managers use this information to adapt current programs to changing societal interests and needs.

Description of Respondents: Individuals or households.

Number of Respondents: 500.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 167.

Title: Evaluation of the Impact of the Summer Food Service Programs Enhancement Demonstrations on Food Insecurity.

Form Number: Not yet assigned.

OMB Number: 0584-NEW.

Expiration Date: Not yet assigned.

Type of Request: New Collection of Information.

Abstract: The Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act of 2010 (Pub. L. 111-80), Section 749(g), directed that the Secretary of Agriculture shall carry out demonstration projects to develop and test methods of providing access to food for children in urban and rural areas during the summer months when schools are not in regular session to reduce or eliminate the food insecurity and hunger of children and to improve the nutritional status of children. Demonstrations of enhancements to existing Summer Food Service Programs (SFSP) will carry out the demonstration projects Congress directed USDA to perform in this section.¹ These demonstrations will include the Home Delivery Demonstration and the Food Backpack Demonstration. The Home Delivery Demonstration will offer breakfast and lunch delivery to the homes of eligible children in rural areas. This demonstration will only operate in rural areas, and only children identified by school districts as eligible for free and reduced-price school meals will be eligible to receive delivered meals. Children, age 18 and younger, normally eligible to receive meals at SFSP sites, will be eligible to receive weekend and holiday meals under the Food Backpack Demonstration Project. In addition, the Act directed the Secretary of Agriculture to provide for an independent evaluation of the demonstration projects using rigorous methodologies. The Evaluation of the Impact of the Summer Food Service Programs Enhancement Demonstrations on Food Insecurity will carry out the provisions of the Act.

The evaluation of these projects is intended to provide policymakers with clear, rigorous and timely findings to make decisions about potential changes to Federal summer feeding programs during the next Child Nutrition reauthorization cycle. Primarily, the

evaluation will examine the impact of the demonstration activities on program operations, benefit usage within target households, and food security. In addition to impact measures, the evaluation will document the process and challenges of implementing the demonstrations. The results will provide valuable information should the demonstration succeed and could lead to policy changes. The evaluation will gather data through surveys from sampled eligible households during the summer and fall of 2011. A third and final household survey will be conducted in summer 2012. In the demonstration areas, roughly the same number of households with eligible children will be sampled from each of two primary strata: treatment group (participating children who have signed

up for the summer food program prior to the summer break) and control group (nonparticipating children).

Affected Public: Individuals/Households; State, Local and Tribal Government. State or tribal agencies, usually departments of education or health, oversee the administration of the SFSP which is most frequently conducted by local government, particularly local education authorities.

Respondent Type: the parents/guardians of individual school-aged children in each demonstration area; and State and local agency officials in each demonstration area.

Estimated Number of Respondents: The maximum total estimated number of respondents, assuming a 100% response rate, is 6,320 (3,160 in 2011 and 3,160 in 2012). Over both years this includes: 1,580 treatment and 1,580

control parents/guardians (1 per interviewed household) in each year; and 100 State and local agency officials in each year.

Estimated Number of Responses per Respondent: There will be one interview per parent/guardian and 1 per State or local official.

Estimated Total Annual Responses: 3,260.

Estimated Time per Response: The estimated average response time is 60 minutes (1 hour), as shown in the table below.

Estimated Total Annual Burden on Respondents: The maximum total estimated response time is 3,260 hours in 2011 and 3,260 hours in 2012. See the table below for estimated total annual burden for each type of respondent.

Type of respondent	Respondent type	Type of instrument	Number of respondents (annual)	Frequency of response	Estimated annual responses	Time per respondent	Annual burden hours
Individual/Households.	Parent-Guardian	Interviews	3,160	1	3,160	1	3,160
State and Local ..	State and Local Agency Official.	Interviews	100	1	100	1	100
Total Annual Cost to Respondents.	3,260	3,260	3,260

Dated: December 23, 2010.
