Title: 49 CFR Part 556, Exemption for Inconsequential Defect or Noncompliance.

OMB Number: 2127-0045.

Type of Request: Extension of a Currently Approved Collection.

Abstract: The National Highway Traffic Safety Administration's statute at 49 U.S.C. 30118, *Notification of Defects and Noncompliance*, and 49 U.S.C. 30120, *Remedies for Defects and Noncompliance*, generally requires manufacturers of motor vehicles and items of replacement equipment to conduct a notification and remedy campaign (recall) when their products are determined to contain a safety-related defect or a noncompliance with a Federal Motor Vehicle Safety Standard (FMVSS). Those sections require a manufacturer of motor vehicles or motor vehicle equipment to notify distributors, dealers, and purchasers if any of the manufacturer's products are determined to either contain a safety-related defect

or fail to comply with an applicable FMVSS. The manufacturer is under a concomitant obligation to remedy such defect or noncompliance. Pursuant to 49 U.S.C. 30118(d) and 30120(h), Exemptions a manufacturer may seek an exemption from these notification and remedy requirements on the basis that the defect or noncompliance is inconsequential as it relates to motor vehicle safety. NHTSA exercised this statutory authority to excuse inconsequential defects or noncompliances when it promulgated 49 CFR part 566, Exemption for Inconsequential Defect or Noncompliance. This regulation establishes the procedures for manufacturers to submit exemption petitions to the agency and the procedures the agency will use in evaluating those petitions. Part 556 allows the agency to ensure that inconsequentiality petitions are both properly substantiated and efficiently processed.

Affected Public: Businesses or other for-profit entities that manufacture or import motor vehicles or motor vehicle replacement equipment.

Estimated Total Annual Burden: 150 hours.
