## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-528, 50-529, 50-530; NRC-2009-0012]

### Arizona Public Service Company, Palo Verde Nuclear Generating Station; Notice of Availability of the Final Supplement 43 to the Generic Environmental Impact Statement for License Renewal of Nuclear Plants

Notice is hereby given that the U.S. Nuclear Regulatory Commission (NRC) has published a final plant-specific supplement to the *Generic Environmental Impact Statement for License Renewal of Nuclear Plants* (GEIS), NUREG-1437, regarding the renewal of operating licenses NPF-41, NPF-51 and NPF-74 for an additional 20 years of operation for the Palo Verde Nuclear Generating Station (PVNGS). Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources.

As discussed in Section 9.4 of the final supplement, the staff determined that the adverse environmental impacts of license renewal for PVNGS are not so great that preserving the option of license renewal for energy planning decision makers would be unreasonable. This recommendation is based on: (1) The analysis and findings in the GEIS; (2) information provided in the environmental report (ER) submitted by Arizona Public Service Company; (3) consultation with Federal, State, and local agencies; (4) a review of pertinent documents and reports; and (5) consideration of public comments received during scoping and on the draft SEIS.

The final Supplement 43 to the GEIS is publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. The accession number for the final Supplement 43 to the GEIS is ML103560149. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR reference staff by telephone at (800) 397-4209 or (301) 415-4737, or by e-mail at [pdr@nrc.gov](mailto:pdr@nrc.gov). In addition, the Litchfield Park Branch Library, 101 West Wigwam Boulevard, Litchfield Park, AZ 85340, has agreed to make the final supplement available for public inspection.

**FOR FURTHER INFORMATION CONTACT:** Mr. David Drucker, Program Operations Branch, Division of License Renewal, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, Mail Stop O-11F1, Washington, DC 20555-0001. Mr. Drucker may be contacted by telephone at (800) 368-5642, extension 6223, or via e-mail at [david.drucker@nrc.gov](mailto:david.drucker@nrc.gov).

Dated at Rockville, Maryland, this 3rd day of January 2011.

For the Nuclear Regulatory Commission.

**Trent Wertz,**

Chief, Program Operations Branch, Division of License Renewal, Office of Nuclear Reactor Regulation.

BILLING CODE 7590-01-P

## NUCLEAR REGULATORY COMMISSION

[Docket No. 50-341; NRC-2010-0388]

### Detroit Edison Company, FERMI 2; Exemption

#### 1.0 Background

Detroit Edison Company (DECo) (the licensee) is the holder of Facility Operating License No. NFP-43 which authorizes operation of the Fermi 2. The license provides, among other things, that the facility is subject to all rules, regulations, and orders of the Nuclear Regulatory Commission (NRC, the Commission) now or hereafter in effect. The facility consists of a boiling water reactor located in Monroe County in Michigan.

#### 2.0 Request/Action

Title 10 of the *Code of Federal Regulations* (10 CFR), Part 50, Appendix E, Section IV.F.2.b requires that "Each licensee at each site shall conduct an exercise of its onsite emergency plan every 2 years." By letter dated August 3, 2010 (Agencywide Documents Access and Management System (ADAMS) Accession No. ML102230442), the licensee requested a one-time exemption from this requirement that would have allowed the licensee to not conduct the onsite portion of a biennial emergency preparedness (EP) exercise in 2010. Requests for additional information (RAIs) were sent to the licensee on September 13, 2010 (ADAMS Accession No. ML102580355), and a teleconference was held with the licensee on September 17, 2010, to discuss the RAIs. By letter dated October 22, 2010 (ADAMS Accession No. ML102950490), the licensee responded to the RAIs and amended their request to include only a one-time
