Background and Purpose

In accordance with Section 912 of the Coast Guard Authorization Act of 2010 (CGAA), the Coast Guard is seeking input from the public and representatives of industry and labor in order to determine if the current authorization in 33 U.S.C. 383, Resistance of pirates by merchant vessels, and the guidance published by the Coast Guard in Port Security Advisory (PSA) 3–09 provide an adequate framework for standard rules for the use of force for self defense of vessels of the United States.

Section 912 of the CGAA states that an owner, operator, time charterer, master, mariner, or individual who uses force or authorizes the use of force to defend a vessel of the United States against an act of piracy shall not be liable for monetary damages for any

injury or death caused by such force to any person engaging in an act of piracy if such force was in accordance with standard rules for the use of force in self-defense of vessels prescribed by the Secretary.

Guidance which may aid the maritime industry with regard to the use of force against pirates is currently provided in PSA 3–09. The Coast Guard seeks public input as to the continued viability of PSA 3–09 as the standard policy. PSA 3–09 provides guidance to United States flagged commercial vessels and embarked personnel, including contract security personnel not entitled to sovereign immunity and operating in High Risk Waters, for employment of force in self-defense or defense of others, as well as defense of the vessel. PSA 3–09 restates existing common law and international law principles in this area. It does not establish new standards or duties with respect to the right of self-defense or defense of others. The guidance is intended to aid companies in the development of their vessel security plan submissions for operating within High Risk Waters and does not mandate specific actions at particular points of time and does not prevent an individual from acting in self-defense or defense of others.

We encourage you to provide your comments as we review the existing policy on the use of force for self-defense of vessels in light of Section 912 of the CGAA.

(4) *E-mail.* Submit comments to FEMA-POLICY@dhs.gov. Include Docket ID FEMA–2010–0069 in the subject line.

All submissions received must include the agency name and Docket ID. Regardless of the method used for submitting comments or material, all submissions will be posted, without change, to the Federal eRulemaking Portal at <http://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to read the Privacy Act notice that is available via the link in the footer of <http://www.regulations.gov>.

FOR FURTHER INFORMATION CONTACT:

Mary Chang, Insurance Examiner, Risk Insurance Division, Mitigation Directorate, 202–212–4712 for additional information. You may contact the Records Management Division for copies of the proposed collection of information at facsimile number (202) 646–3347 or *e-mail address:* FEMA-Information-Collections-Management@dhs.gov.

SUPPLEMENTARY INFORMATION: The Coastal Barrier Resources Act (16 U.S.C. 3501, *et seq.*; Pub. L. 97–348) and the Coastal Barrier Improvement Act of

1990 (Pub. L. 101– 591) are Federal laws that were enacted on October 18, 1982, and November 16, 1990, respectively, as part of a Department of the Interior (DOI) initiative to preserve the ecological integrity of areas DOI designates as coastal barriers and otherwise protected areas. The laws provide this protection by prohibiting all Federal expenditures or financial assistance including flood insurance for residential or commercial development in areas identified with the system. When an application for flood insurance is submitted for buildings located in Coastal Barrier Resources System (CBRS) communities, documentation must be submitted as evidence of eligibility. Part 71 of 44 CFR implements section 11 of the Coastal Barrier Resources Act and section 9 of the Coastal Barrier Improvement Act of 1990, as those Acts amend the National Flood Insurance Act of 1968 (42 U.S.C. 4001, *et seq.*). The documentation required in 44 CFR 71.4 is provided to

FEMA for a determination that a building which is located on a designated coastal barrier and for which an application for flood insurance is being made, is neither new construction nor a substantial improvement, and therefore, is eligible for National Flood Insurance Program (NFIP) coverage. If the information is not collected, NFIP policies might be provided for buildings, which are legally ineligible for it, thus exposing the Federal Government to an insurance liability Congress chose to limit.

Collection of Information

Title: Implementation of Coastal Barrier Resources Act.

Type of Information Collection: Extension, without change, of a currently approved information collection.

OMB Number: 1660–0010.

Form Titles and Numbers: No forms.

Abstract: When an application for flood insurance is submitted for

buildings located in CBRS communities, one of the following types of documentation must be submitted as evidence of eligibility: (a) Certification from a community official stating the building is not located in a designated CBRS area; (b) A legally valid building permit or certification from a community official stating that the start date of a building’s construction preceded the date that the community was identified in the CBRS; or (c) Certification from the governmental body overseeing the area indicating that the building is used in a manner consistent with the purpose for which the area is protected.

Affected Public: Individuals or households; Businesses or other for-profits; Not-for-profit institutions; Farms; Federal Government; and State, local or Tribal governments.

Estimated Total Annual Burden Hours: 672.5 burden hours.

ANNUAL HOUR BURDEN

Data collection activity/instrument	No. of respondents	Frequency of responses	Hour burden per response	Annual responses	Total annual burden hours
	(A)	(B)	(C)	(D) = (AxB)	(Cx D)
—FEMA Flood Insurance Rate Map	2690	1	.25	2690	672.5
—Legally Valid Building Permit					
—Written and Signed Statement from a Community Official					
TOTAL	2690	1	.25	2690	672.5

Estimated Cost: The estimate annual operations and maintenance costs for technical services is \$2690.00. There are no annual start-up or capital costs.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology,

e.g., permitting electronic submission of responses.
