In 2010, MEPS-IC, available at http://www.meps.ahrq.gov, published the annual 2009 average total single premium per enrolled employee at private-sector establishments that provide health insurance. The figure published was \$4,669. This figure is divided by 12-months to determine the cost per month of \$389.08. The \$389.08 shall be increased or decreased by the percentage change reported by the most recent KFF/HRET, available at http:// www.kff.org. The percentage increase was published at 5 percent. By adding this percentage increase, the calculated average monthly cost of a health insurance policy for 12-month period is \$408.53.

The Department will periodically (generally on an annual basis) recalculate the average cost of a health insurance policy by obtaining a new figure from the latest MEPS—IC data and updating this figure using the percentage change(s) reported by the most recent data from KFF/HRET or other authoritative source that may be more accurate or appropriate in the future. The updated calculation will be published as a notice in the Federal Register and filed with the Court.

Therefore, the Secretary announces that the revised average cost of a health insurance policy under the VICP is \$408.53 per month. In accordance with § 100.2, the revised amount was effective upon its delivery by the Secretary to the United States Court of Federal Claims. Such notice was delivered to the Court on January 7, 2011.

Dated: January 21, 2011.

Mary K. Wakefield,

Administrator.

Proposed Collection; Comment Request; NIH Office of Intramural Training & Education Application

Summary: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the Office of Intramural Training & Education, the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the Federal Register on July 20, 2010 (Vol. 75, No. 138 on pages 42097-42098) and allowed 60-days for public comment. No public comments were received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection: Title: NIH Office of Intramural Training & Education Application. Type of Information Collection Request: REVISION. Need and Use of Information Collection: The Office of Intramural Training & Education (OITE) administers a variety of programs and initiatives to recruit pre-college through post-doctoral educational level individuals into the National Institutes of Health Intramural Research Program (NIH-IRP) to facilitate develop into future biomedical scientists. The proposed information collection is necessary in order to determine the eligibility and quality of potential awardees for traineeships in these programs. The applications for admission consideration include key

areas such as: Personal information, eligibility criteria, contact information, student identification number, training program selection, scientific discipline interests, educational history, standardized examination scores. reference information, resume components, employment history, employment interests, dissertation research details, letters of recommendation, financial aid history, sensitive data, future networking contact, travel information, as well as feedback questions about interviews and application submission experiences. Sensitive data collected on the applicants, race, gender, ethnicity and recruitment method, are made available only to OITE staff members or in aggregate form to select NIH offices and are not used by the admission committee for admission consideration; optional to submit.

Over the last several years the OITE has used three OMB Clearance Numbers for the collection of applications for the training programs. To improve announcement of all training programs and lessen the burden of applicants, the OITE proposes to merge the following:

- 0925–0299—NIH Intramural Research Training Award, Program Application
- 0925–0438—Undergraduate Scholarship Program (UGSP)
- 0925–0501—Graduate Student Training Program Application Renewing 0925–0299 OMB Clearance Number with the new name "Office of Intramural Training & Education Application".

Frequency of Response: On occasion. Affected Public: Individuals seeking intramural training opportunities and references for these individuals. Type of Respondents: Students, post-baccalaureates, technicians, graduate students, and post-doctorates. There are no capital costs, operating costs, and/or maintenance costs to report.

The annual reporting burden is displayed in the following table:
