

soliciting input on the topics described below.

1. The level and extent of vapor intrusion contamination that would warrant evaluation for placement on the NPL, as well as the identification of screening level information sufficient to perform this evaluation.

2. Methods for incorporating vapor intrusion into the HRS while, to the extent possible, maintaining the structure of the other pathways in the current HRS and retaining that same structure throughout the new mechanism for vapor intrusion (*i.e.*, likelihood of release, waste characteristics, and targets). These methods could include the addition of vapor intrusion as a migration pathway (*e.g.*, groundwater), or part of an exposure pathway (*e.g.*, threat within a direct exposure pathway along with soil).

3. Consideration of the importance of evaluating the potential threat to populations not demonstrated to be exposed to contaminant intrusion.

4. The identification of sampling procedures available and practical to detect the presence of contamination due to vapor intrusion.

5. The availability of screening sampling strategies that can adequately compensate for the variability in vapor intrusion rates under different climatic and seasonal conditions.

6. Identification of analytical methods that are sufficiently precise and accurate to demonstrate a significant increase in contaminant levels from vapor intrusion.

7. The importance of the threat posed by exposure to contaminant vapor intrusion via inhalation, dermal contact with the vapors or condensate on surfaces, and ingestion.

8. The identification of what environmental factors (*e.g.*, porosity of soil, presence of a contaminated aquifer, climate) and structural and lifestyle factors (*e.g.*, houses with basements) should appropriately be considered in determining whether a site warrants sampling for contaminant vapor intrusion.

9. In addition to residences, schools and other occupied structures, the identification of structures in which contaminant vapor intrusion could result in a significant threat to human health (*e.g.*, community recreation centers, cultural centers, museums, athletic facilities).

10. The possible need to consider not only contaminant vapor intrusion, but also intrusion of contaminants in solid (*i.e.*, particulates) and liquid forms.

In addition to these topics, EPA also solicits input on community outreach

methods that would be most effective in gathering and disseminating information regarding this potential addition to the HRS. To further support this effort, EPA requests public input on the identification of possible vapor intrusion sites. This information will be used for informational purposes only.

EPA will consider all public input when evaluating whether changes to the HRS are appropriate, and whether to issue a proposed amendment to the HRS.

Listening Sessions

The first listening session will be held in Arlington, VA on February 24, 2011. Specific details of the listening sessions, including dates and locations for the other two sessions, and instructions for those wishing to present oral comments will be posted at: <http://www.epa.gov/superfund/sites/npl/hrsaddition.htm>. At this site, users will also be able to sign up for a mailing list that will be used to distribute logistical information on these listening sessions. Registration is not required to attend a listening session with the following exceptions.

Due to space limitations, parties interested in presenting oral comments at the Arlington, VA listening session only, must register for that session. Registration must be completed at least 3 calendar days prior to the session. Details for registration will be posted on the Web at <http://www.epa.gov/superfund/sites/npl/hrsaddition.htm>. If no speakers have registered by 2 calendar days prior to this listening session, it will be cancelled and EPA will notify those registered of the cancellation. The Agency will also post on its Web site that the listening session has been cancelled.

In addition to attending in person, participation in the Arlington, VA listening session will be available via a teleconference. Those wishing to attend via teleconference must register as described above. EPA will provide the teleconference information to registrants via e-mail notification in advance of the session.

The Arlington, VA listening session will be held at EPA's Potomac Yard office located at: 2777 Crystal Drive, Arlington, VA 22202. The listening session will begin at 9 a.m. and end at 5 p.m. The Arlington, VA listening session may be webcast. Please refer to the Superfund "Addition of Vapor Intrusion to HRS" Web Site, <http://www.epa.gov/superfund/sites/npl/hrsaddition.htm> for information on how to access the webcast. Please note that the webcast is a supplementary public process provided only for convenience. If difficulties arise resulting in

webcasting outages, the meeting will continue as planned.

In general, each oral comment at listening sessions should be limited to no more than 15 minutes in length. If, however, there are more individuals who wish to present comments than the allotted time for the listening session allows, an announcement will be made at the beginning of the listening session that the time limit has been adjusted to allow for the presentation of more comments.

EXPORT-IMPORT BANK OF THE U.S.

[Public Notice 2011-0010]

Agency Information Collection Activities: Comment Request

AGENCY: Export-Import Bank of the U.S.

ACTION: Submission for OMB Review and Comments Request.

Form Title: Notice of Claim and Proof of Loss, Medium Term Guarantee.

SUMMARY: The Export-Import Bank of the United States ("Ex-Im Bank") is the official export credit agency of the United States. Its mission is to create and sustain U.S. jobs by financing U.S. exports through direct loans, guarantees, insurance and working capital credits. By neutralizing the effect of export credit support offered by foreign governments and by absorbing credit risks that the private sector will not accept, Ex-Im Bank enables U.S. exporters to compete fairly in foreign markets on the basis of price and product. Under the Medium Term Guarantee Program, Ex-Im Bank provides guarantees of principal and interest on floating or fixed-rate loans by eligible lenders to credit worthy buyers of US goods and services. The guarantee covers the repayment risks on the foreign buyer's debt obligations. Ex-Im Bank guarantees that, in the event of a payment default by the borrower, it will repay the lender the outstanding principal and interest on the loan.

In the event that a borrower defaults on a transaction guaranteed by Ex-Im Bank the guaranteed lender may seek payment by the submission of a claim. This collection of information is necessary, pursuant to 12 USC 635(a)(1), to determine if such claim complies with the terms and conditions of the relevant guarantee agreement.
