SUPPLEMENTARY INFORMATION:

Applicable Statute and Regulations

Unless otherwise indicated, all citations to the Act or the Department's regulations, 19 CFR part 351, are to those provisions in effect on September 27, 2004, the date of initiation of this investigation.

Case History

On September 13, 2010, we published in the **Federal Register** our preliminary determination in the antidumping duty investigation of polyvinyl alcohol from Taiwan. See *Polyvinyl Alcohol From Taiwan: Preliminary Determination of Sales at Less Than Fair Value and Postponement of Final Determination*,

75 FR 55552 (September 13, 2010) (*Preliminary Determination*).

As provided in section 782(i) of the Act, we conducted sales and cost verifications of the questionnaire responses submitted by the sole respondent, Chang Chun Petrochemical Co., Ltd. (CCPC). We used standard verification procedures, including examination of relevant accounting and production records, as well as original source documents provided by CCPC. See Memorandum to the File entitled "Polyvinyl Alcohol from Taiwan: Sales Verification of Chang Chun Petrochemical Co., Ltd.," dated October 12, 2010, and Memorandum to Neal M. Halper entitled "Verification of the Cost of Production and Constructed Value Data Submitted by Chang Chun Petrochemical Co., Ltd., in the Antidumping Duty Investigation of Polyvinyl Alcohol from Taiwan" dated October 26, 2010. All verification reports are on file and available in the Central Records Unit (CRU), Room 7046, of the main Department of Commerce building.

We received case briefs submitted by Sekisui Specialty Chemicals America, LLC (the petitioner), and CCPC on November 2, 2010. The petitioner and CCPC submitted rebuttal briefs on November 8, 2010. We held a public hearing on December 1, 2010.

Period of Investigation

The period of investigation is July 1, 2003, through June 30, 2004.¹ This period corresponds to the four most recent fiscal quarters prior to the month of the filing of the petition, September 2004. See 19 CFR 351.204(b)(1).

Scope of the Investigation

The merchandise covered by this investigation is PVA. This product consists of all PVA hydrolyzed in excess of 80 percent, whether or not mixed or diluted with commercial levels of defoamer or boric acid. PVA in fiber form and PVB-grade low-ash PVA are not included in the scope of this investigation. PVB-grade low-ash PVA is defined to be PVA that meets the following specifications: Hydrolysis, Mole % of 98.40 +/- 0.40, 4% Solution Viscosity 30.00 +/- 2.50 centipois, and ash—ISE, wt% less than 0.60, 4% solution color 20mm cell, 10.0 maximum APHA units, haze index, 20mm cell, 5.0, maximum. The

¹ We initiated this investigation on September 27, 2004, but terminated it after the International Trade Commission's (ITC's) preliminary determination of no injury. We resumed this investigation after that determination was reversed upon remand. See *Preliminary Determination*, 75 FR at 55552, for full details of the history of this investigation.

merchandise under investigation is currently classifiable under subheading 3905.30.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, the written description of the merchandise under investigation is dispositive.

Analysis of Comments Received

All issues raised in the case and rebuttal briefs by parties to this antidumping investigation are addressed in the "Issues and Decision Memorandum for the Antidumping Investigation of Polyvinyl Alcohol from Taiwan" (Decision Memorandum) from Gary Taverman, Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations, to Christian Marsh, Acting Deputy Assistant Secretary for Import Administration, dated January 26, 2011, which is hereby adopted by this notice. A list of the issues which parties have raised and to which we have responded, all of which are in the Decision Memorandum, is attached to this notice as an appendix. Parties can find a complete discussion of all issues raised in this investigation and the corresponding recommendations in the Decision Memorandum which is on file in the CRU. In addition, a complete version of the Decision Memorandum can be accessed directly on the Web at <http://ia.ita.doc.gov/frn/index.html>. The paper copy and electronic version of the Decision Memorandum are identical in content.

Changes Since the Preliminary Determination

Based on our analysis of the comments received and our findings at the verifications, we have made certain changes to the margin calculation for CCPC. For a discussion of these changes, see Memorandum to the File entitled "Final Determination of Sales at Less Than Fair Value in the Antidumping Duty Investigation of Polyvinyl Alcohol from Taiwan—Analysis Memorandum for Chang Chun Petrochemical Co., Ltd.," dated January 26, 2011.

Cost of Production

As explained in the *Preliminary Determination* (75 FR at 55556), we conducted an investigation concerning sales at prices below the cost of production in the home market. We found that, for certain specific products, more than 20 percent of CCPC's home-market sales were at prices less than the cost of production and, in addition, such sales did not provide for the
