

source reduction activities (Part II: Sec. 8.10, 8.10.1–4).

- Remove the “Yes” box and enlarge the text section for the question on optional pollution prevention information (Part II: Section 8.11).

Rationale: The current form requests information on “any source reduction activities for this chemical during the reporting year;” but the Reporting Forms and Instructions request information on “newly implemented” source reduction activities. These form changes will remove this difference, allow facilities to distinguish between new and ongoing source reduction activities, and provide additional optional information on source reduction, recycling, or pollution control activities on the form itself (in box 8.11).

4. Add a new question to capture miscellaneous and optional information regarding the submission (Part II: Sec. 9., 9.1). *Rationale:* This new text box will allow facilities to provide optional, miscellaneous information that may be helpful to EPA and/or the public in using or interpreting their data (e.g., facility closures, explanations for changes in release quantities, etc.).

5. Add NA boxes to Part II, Sections 5.3, 6.1, and 6.2. *Rationale:* Adding NA boxes to these sections will make the formatting of Form R and Form R Schedule 1 more consistent.

What is the next step in the process for these ICRs?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice for the ICR pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for Nominations to the Good Neighbor Environmental Board.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations from a diverse range of qualified candidates to be considered for appointment to its Good Neighbor Environmental Board. Vacancies are anticipated to be filled by May 2011. Sources in addition to this **Federal Register** Notice may also be utilized in the solicitation of nominees.

Background: GNEB is a Federal advisory committee chartered under the Federal Advisory Committee Act (FACA), Public Law 92-463. GNEB was created in 1992 by the Enterprise for the Americas Initiative Act, Public Law 102-532, 7 U.S.C. 5404. Implementing authority was delegated to the Administrator of EPA under Executive Order 12916. The Board is responsible for providing advice to the President and the Congress on environmental and infrastructure issues and needs within the States contiguous to Mexico in order to improve the quality of life of persons

residing on the United States side of the border. The statute calls for the Board to have representatives from U.S. Government agencies; the States of Arizona, California, New Mexico and Texas; and Tribal and private organizations to provide advice on environmental and infrastructure issues along the U.S./Mexico Border. Members are appointed by the EPA Administrator for two year terms with the possibility of reappointment to a second term. The Board meets approximately three times annually, twice at various locations along the U.S.-Mexico border and once in Washington, DC. The Board is responsible for providing guidance to the President and Congress on environmental and infrastructure issues along the U.S.-Mexico border in the form of an annual report and through advice letters. EPA provides reimbursement for travel and other incidental expenses associated with official government business. The GNEB is seeking nominations from a variety of nongovernmental interests along the U.S.-Mexico border from the private sector, academia, environmental groups, health groups, ranching and grazing, energy, and other relevant sectors. EPA values and welcomes diversity. In an effort to obtain nominations of diverse candidates, EPA encourages nominations of women and men of all racial and ethnic groups.

The following criteria will be used to evaluate nominees:

- Representative of a sector or group that helps to shape border-region environmental policy or representatives of a group that is affected by border-region environmental policy.

- Ability to contribute approximately 10 to 15 hours per month to the Board's activities, including face-to-face meetings, conference calls, participation on the Board's annual report to the President and Congress and comment letters.
- Nominees may self-nominate by submitting a resume describing their professional and educational qualifications, including current business address, e-mail and daytime telephone number.
- All nominees must demonstrate the potential for active and constructive involvement in the Board's work.
