

source reduction activities (Part II: Sec. 8.10, 8.10.1–4).

- Remove the “Yes” box and enlarge the text section for the question on optional pollution prevention information (Part II: Section 8.11).

*Rationale:* The current form requests information on “any source reduction activities for this chemical during the reporting year;” but the Reporting Forms and Instructions request information on “newly implemented” source reduction activities. These form changes will remove this difference, allow facilities to distinguish between new and ongoing source reduction activities, and provide additional optional information on source reduction, recycling, or pollution control activities on the form itself (in box 8.11).

4. Add a new question to capture miscellaneous and optional information regarding the submission (Part II: Sec. 9., 9.1). *Rationale:* This new text box will allow facilities to provide optional, miscellaneous information that may be helpful to EPA and/or the public in using or interpreting their data (e.g., facility closures, explanations for changes in release quantities, etc.).

5. Add NA boxes to Part II, Sections 5.3, 6.1, and 6.2. *Rationale:* Adding NA boxes to these sections will make the formatting of Form R and Form R Schedule 1 more consistent.

#### What is the next step in the process for these ICRs?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice for the ICR pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the individual listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: February 6, 2011.

### Environmental Impacts Statements; Notice of Availability

*Responsible Agency:* Office of Federal Activities, General Information (202) 564–1399 or <http://www.epa.gov/compliance/nepa/>.

Weekly receipt of Environmental Impact Statements.

Filed 01/31/2011 through 02/04/2011. Pursuant to 40 CFR 1506.9.

#### Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA’s comment letters, in the **Federal Register**. Since February 2008, EPA has included its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA’s comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.

### Notice of Open Meeting of the Environmental Financial Advisory Board (EFAB)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The United States Environmental Protection Agency’s (EPA) Environmental Financial Advisory Board (EFAB) will hold a meeting on March 8–9, 2011. EFAB is an EPA advisory committee chartered under the Federal Advisory Committee Act (FACA) to provide advice and recommendations to EPA on creative approaches to funding environmental programs, projects, and activities.

The purpose of the meeting is to hear from informed speakers on environmental finance issues, proposed legislation, Agency priorities and to discuss progress with work projects under EFAB’s current Strategic Action Agenda.

Environmental Finance topics expected to be discussed include: Financing Clean Air Technology; Voluntary Environmental Improvement Bonds (VEIB)/Property Assessed Clean Energy (PACE) Financing; Environmental Improvements; Financing Infrastructure for Tribal Communities; and Leveraging Private
