SUPPLEMENTARY INFORMATION:**I. Abstract**

Under the Magnuson-Stevens Fishery Conservation and Management Act, the Secretary of Commerce (Secretary) has the responsibility for the conservation and management of marine fishery resources. Much of this responsibility has been delegated to the National Oceanic and Atmospheric Administration (NOAA)/National Marine Fisheries Service (NMFS). Under this stewardship role, the Secretary was given certain regulatory authorities to ensure the most beneficial uses of these resources. One of the regulatory steps taken to carry out the conservation and management objectives is to collect data from users of the resource.

Regulations at 50 CFR 648.11(g) require observer service providers to comply with specific requirements in order to operate as an approved provider in the Atlantic sea scallop (scallop) fishery. Observer service providers must comply with the following requirements: Submit applications for approval as an observer service provider; formally request

observer training by the Northeast Fisheries Observer Program (NEFOP); submit observer deployment reports and biological samples; give notification of whether a vessel must carry an observer within 24 hours of the vessel owner's notification of a prospective trip; maintain an updated contact list of all observers that includes the observer identification number; observer's name mailing address, e-mail address, phone numbers, homeports or fisheries/trip types assigned, and whether or not the observer is "in service." The regulations also require observer service providers submit any outreach materials, such as informational pamphlets, payment notification, and descriptions of observer duties as well as all contracts between the service provider and entities requiring observer services for review to NMFS/NEFOP. Observer service providers also have the option to respond to application denials, and submit a rebuttal in response to a pending removal from the list of approved observer providers. These requirements allow NMFS/NEFOP to effectively administer the scallop observer program.

II. Method of Collection

The approved observer service providers submit information to NMFS/NEFOP via e-mail, fax, or postal service.
