SUPPLEMENTARY INFORMATION: The S71 Bridge, a bascule lift drawbridge, across Shark River (South Channel), at mile 0.8, in Belmar, NJ, has a vertical clearance in the closed position to vessels of approximately 13 feet above mean high water.

On behalf of the Town of Belmar, New Jersey Department of Transportation (NJDOT) has requested a temporary deviation from the current operating regulations of the bridge set out in 33 CFR 117.751 to accommodate the Saint Patrick's Day parade scheduled for Sunday, March 6, 2011.

Under this deviation, the drawbridge would be allowed to remain in the closed to navigation position on two separate closure periods starting from 9 a.m. to 3 p.m. and from 6 p.m. to 11:59 p.m. on Sunday, March 6, 2011, to help lessen traffic congestion related to the Saint Patrick's Day parade.

Bridge opening data, supplied by NJDOT and reviewed by the Coast Guard, revealed that the bridge opened for vessels approximately 80 times in the month of March 2010. The primary user of the waterway that operates in the vicinity of the bridge is commercial fishermen. Vessels that are able can pass underneath the bridge in the closed position at any time. There are no alternate routes for vessels transiting this section of Shark River (South Branch) and the drawbridge will be able to open in the event of an emergency.

The Coast Guard will inform the users of the waterway through our Local and Broadcast Notices to Mariners of the closure periods for the bridge so that vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the designated time period. This

deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: February 11, 2011.

Waverly W. Gregory, Jr.,
Chief, Bridge Administration Branch, Fifth
Coast Guard District.
