

to comment as to whether such a requirement would impose undue delays and other administrative burdens affecting the ability of market participants to use locational exchanges.

27. The Commission seeks comment regarding circumstances in which locational exchanges of electric power should be permitted generically. In this regard, the Commission seeks comment regarding criteria that might define a safe harbor within which a locational exchange would be deemed a permissible wholesale power transaction without prior Commission review of that transaction. Under this approach, those parties seeking to enter into exchanges that do not satisfy the safe harbor criteria could seek Commission approval on a case-by-case basis. To the extent that there are circumstances in which locational exchanges are permitted on a generic basis, the Commission seeks comment regarding any additional rules that may be necessary to regulate the exchanges.
