# DEFENSE NUCLEAR FACILITIES SAFETY BOARD

#### **Sunshine Act Notice**

**AGENCY:** Defense Nuclear Facilities Safety Board.

**ACTION:** Notice of public meeting.

SUMMARY: Pursuant to the provisions of the Government in the Sunshine Act, 5 U.S.C. 552b, and as authorized by 42 U.S.C. 2286b, notice is hereby given of the Defense Nuclear Facilities Safety Board's public hearing and meeting described below. Interested persons or groups may present comments, technical information, or data concerning safety issues related to the matters to be considered.

TIME AND DATE OF MEETING: 9 a.m., March 31, 2011.

PLACE: Defense Nuclear Facilities Safety Board, Public Hearing Room, 625 Indiana Avenue, NW., Suite 300, Washington, DC 20004–2901. Additionally, as a part of the Board's E-Government initiative, the meeting will be presented live through Internet video streaming. A link to the presentation will be available on the Board's Web site (http://www.dnfsb.gov).

**STATUS:** Open. While the Government in the Sunshine Act does not require that the scheduled discussion be conducted in a meeting, the Board has determined that an open meeting in this specific case furthers the public interests underlying both the Sunshine Act and the Board's enabling legislation.

**MATTERS TO BE CONSIDERED:** This is the third in a series of public meetings to examine the Department of Energy's (DOE) implementation of

Recommendation 2004-1, Oversight of Complex, High-Hazard Nuclear Operations. The Board is reviewing DOE's and the National Nuclear Security Administration's (NNSA) safety management and oversight of the contracts and contractors they rely upon to accomplish the mission assigned to DOE and NNSA under the Atomic Energy Act of 1954, as amended, at defense nuclear facilities. We will focus on what impact DOE's and NNSA's new initiatives, including changes to DOE directives, contractor oversight, and governance, may have upon assuring adequate protection of the health and safety of the public and workers at DOE's and NNSA's defense nuclear facilities. We are conducting this series of public meetings to collect information needed to understand and address any health or safety concerns that may require Board action.

In the March 31, 2011, meeting the Board will explore in more depth Federal safety management and oversight policies being developed and administered by DOE and NNSA for defense nuclear facilities. DOE and NNSA senior leaders will articulate their views on the role of line and independent oversight to safely accomplish their work at defense nuclear facilities. The Board will examine DOE's and NNSA's evolving approach to federal oversight and its relationship to contractor assurance systems as well as the effect of changes to DOE directives. The public hearing portion of this proceeding is authorized by 42 U.S.C. 2286b.
