

unit cost of materials, per unit cost of labor, per unit cost of design, test and certification, etc. Data from each manufacturer will be held confidential by the CPA and coded to remove corporate identifiers. The goal is to assess the cost of change to the industry rather than to an individual product within a given manufacturers' broad product line.

Candidate companies will be evaluated based on their capability and willingness to work cooperatively to achieve the stated goals. Candidates selected will be required to enter into a Letter of Agreement spelling out the level of participation expected of each partner and the handling of data generated from the partnership. This announcement does not obligate NIOSH to enter into an agreement with any respondents. NIOSH reserves the right to establish a partnership based on the engineering analysis and capabilities found by way of this announcement or other searches, if determined to be in the best interest of the government.

NIOSH recognizes this opportunity will raise many questions for prospective partners. In order to give all involved the greatest opportunity to understand the process and project expectations, the NTEA-AMD, our collaborative partner and host standards setting body, has agreed to provide a meeting room for us to hold an informational meeting to present a broad overview of the effort and answer any resulting questions.

In order to provide us with the best opportunity to meet the needs of all prospective partners at each of these meetings; we request that all interested parties contact Jim Green, NIOSH Project Officer, by e-mail at JGreen@cdc.gov; or telephone (304) 285-5857, by Thursday, March 17, 2011.

CONTACT PERSON FOR MORE INFORMATION: Jim Green, NIOSH Project Officer, e-mail: JGreen@cdc.gov; telephone (304) 285-5857.

The Director, Management Analysis and Services Office, has been delegated the authority to sign **Federal Register** notices pertaining to announcements of meetings and other committee management activities, for both the Centers for Disease Control and Prevention and the Agency for Toxic Substances and Disease Registry.

Dated: March 7, 2011.

Tanja Popovic,

Deputy Associate Director for Science, Centers for Disease Control and Prevention.
