b. Is the monitoring and evaluation criteria and process clearly described and sufficient to provide FAS with an evaluation report that would clearly indicate the benefit and drawbacks of the new product to the population?

c. What are the qualifications of the evaluation team?

d. Is the organization's plan to develop and submit a final evaluation report to FAS clear and well defined?

e. What is the quality of the project's performance measures, and the degree to which they relate to the objectives, deliverables, and proposed approach and activities?

VI. Award Administration Information

1. *Award Notices:* FAS will notify each applicant in writing of the final disposition of its application. FAS will send a letter to each approved applicant that will specify the amount of funding. Once the approved applicant receives this letter, FAS will begin negotiations with the program participant to develop a grant agreement. The agreement will incorporate the details of the project as approved by FAS and in accordance with the McGovern-Dole Program regulations, 7 CFR part 1599. Approved applicants will not receive funding under the MFFAPP until the agreement negotiation is complete and the agreement has been signed by authorized representatives of the applicant and FAS.

2. *Reporting:* An organization receiving funding under the MFFAPP will be required to provide quarterly financial reports, semi-annual logistics and monitoring reports, and a final

evaluation report, as provided in the grant agreement. In its final evaluation report, the organization will be required to use supporting evidence gathered during the pilot to describe the benefits and drawbacks of the new product to the population and to address the benefits or drawbacks of the new or improved product as compared to traditional food assistance commodities. Changes in the original project timelines and adjustments within project budgets must be approved by FAS prior to their implementation.

3. *Monitoring and Evaluation:* A program participant shall submit to FAS, in the manner specified in the agreement, an annual financial audit in accordance with 7 CFR 1599.13(d). If FAS requires an annual financial audit with respect to a particular agreement, and FAS provides funds for this purpose, the participant shall arrange for such audit and submit it to FAS, in the manner specified in the agreement. The participant shall provide to FAS additional information or reports relating to the agreement if requested by FAS.

Signed at Washington, DC on the 24th of January 2011.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Dam Owner Survey to Support Management of Gulf of Maine Distinct Population Segment of Atlantic Salmon.

OMB Control Number: None.

Form Number(s): NA.

Type of Request: Regular submission (request for approval of a new information collection).

Number of Respondents: 109 per year.

Average Hours per Response: 10 minutes for owners of two or fewer dams; 1 hour for those owning three or more dams.

Burden Hours: 23 per year.

Needs and Uses: This is a request for approval of a new information collection.

In 2009, Atlantic salmon populations from the Androscoggin River in South Central Maine to the Dennys River in Eastern Maine were listed as Endangered under the Federal Endangered Species Act (ESA) (74 FR 29344, June 19, 2009). Dams were identified in the listing as a significant threat to the species survival and recovery. In order for recovery to occur, Atlantic salmon must have access to sufficient adult spawning habitat and juvenile rearing habitat to support the continued existence of a recovered salmon population. In furtherance of recovery, the National Marine Fisheries Service (NMFS) proposes to conduct a survey of dam owners.

This survey will identify opportunities for fish passage improvements or dam removal that may fit into existing funding programs directed towards improving fish passage for diadromous fish species. Information from this survey will also be collected to educate NOAA on the current use, anticipated use, and community interest in small dams. This type of information will aid NMFS in developing tools to communicate and work effectively with dam owners within the Gulf of Maine Distinct Population Segment. Information will be collected on current uses of dams, anticipated uses of dams, important issues or concerns to dam owners, and owners' interest in creating fish passage or removing dams. Associations or organizations with an interest in the dams will also be identified.

Affected Public: Business or other for-profit organizations.

Frequency: Annually (one time only, but spread over two years).

Respondent's Obligation: Voluntary.

OMB Desk Officer:

OIRA Submission@omb.eop.gov.
