Section 1: Funding Opportunity Description

1.1 Legislative Authority

This financial assistance announcement is intended to solicit proposals for high-speed and intercity passenger rail projects under FRA's HSIPR program. The authority for this grant program is contained in three pieces of legislation:

- The Passenger Rail Investment and Improvement Act of 2008 (Div. B of Pub. L. 110-432, October 16, 2008) (PRIIA), under Sections 301, 302, and 501: Intercity Passenger Rail Service Corridor Capital Assistance (codified at 49 U.S.C. chapter 244), General Passenger Rail Transportation (codified at 49 U.S.C. 24105), and High-Speed Rail Assistance (codified at 49 U.S.C. 26106), respectively;

- The American Recovery and Reinvestment Act of 2009 (Pub. L. 111-5, February 17, 2009) (ARRA or the Recovery Act), under the title "Capital Assistance for High Speed Rail Corridors and Intercity Passenger Rail Service;" and

- The Fiscal Year 2010 Consolidated Appropriations Act (Title I of Div. A of Pub. L. 111-117, December 16, 2009) (FY 2010 DOT Appropriations Act), under the title "Capital Assistance for

High Speed Rail Corridors and Intercity Passenger Rail Service."

1.2 Background

Since enactment of PRIIA, FRA has made approximately \$10.6 billion available under the HSIPR program. Award of these funds has served to jump-start high-speed and intercity passenger rail projects throughout the country. However, recently it has become clear that some of the funds previously announced would not be used to advance the originally intended projects; in particular, approximately \$2.392 billion announced for the State of Florida.

The purpose of this notice is to solicit applications—for eligible projects that could immediately proceed to award—for the approximately \$2.392 billion previously announced for Florida and approximately \$38 million in remaining unallocated Recovery Act funding. This notice is also intended to establish a pipeline of meritorious projects that could receive any other HSIPR funds available at the time of award. These other funds could include savings that result from previously awarded projects coming in under budget, funds withdrawn from previously awarded projects that are not proceeding satisfactorily, any other appropriated funds authorized under PRIIA and made available through the remainder of this fiscal year, or other sources.

The approximately \$2.392 billion previously announced for Florida included funds provided both under the Recovery Act and the FY 2010 DOT Appropriations Act. Additional funds awarded under this notice could be provided from other sources. Therefore, applicants should not be concerned with applying for funds from a specific appropriations statute; rather they should seek to submit the best projects that could be funded from any or all such sources. Additionally, all applicants are encouraged to contribute non-Federal matching funds, a factor that will be considered when evaluating the merit of an application. While applicants may identify any aspects of their projects that might favor one or the other appropriations statute (the different requirements for each source of funding are discussed in Sections 1.3, 3, and 6), FRA will determine which funding to provide to projects selected for award at its own discretion. However, applicants should note that any projects receiving funding under the Recovery Act must be able to be obligated by September 30, 2012 and completed by September 30, 2017—both statutory requirements under the Recovery Act.
