[Docket No. CP11-120-000]

Liberty Gas Storage, LLC and LA Storage, LLC; Notice of Joint Application for Abandonment and Certificate of Public Convenience and Necessity

Take notice that on March 4, 2011, Liberty Gas Storage, LLC (Liberty) and LA Storage, LLC (LA Storage) filed with the Federal Energy Regulatory Commission (Commission) a joint application under section 7 for (i) Authorization from the Commission pursuant to section 7(b) of the NGA for Liberty to abandon by transfer certain facilities to LA Storage; (ii) a certificate of public convenience and necessity pursuant to section 7(c) of the NGA for LA Storage to acquire, own and operate such facilities; (iii) authorization for LA Storage to charge market-based rates for the storage and hub services it will provide; (iv) a blanket construction certificate issued to LA Storage under Subpart F of Part 157 of the Commission's Regulations; and (v) a blanket transportation certificate issued to LA Storage under Subpart G of Part 284 of the Commission's regulations.

Questions regarding the joint application may be directed to William Rapp, Counsel for Liberty and LA Storage, 101 Ash Street, San Diego, CA 92101; telephone (619) 699-5050; e-mail: wraapp@semprapipelines.com.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify Federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all Federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to

obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 7 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentors will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentors will not be required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically

should submit an original and 7 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). Cascade Creek, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 1, 2011, Cascade Creek, LLC filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Cascade Creek Hydroelectric Project (Cascade Creek project) to be located on Cascade Creek, Swan Lake, and Falls Lake in the vicinity of Petersburg, Alaska. The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project will consist of the following: (1) A low-head weir on Swan Lake with a 3-foot-high, 50-foot-long crest gate and an intake siphon; (2) a 16,000-foot-long, 12 to 14-foot diameter unlined power conduit; (3) an 780-foot-long, 9-foot-diameter steel penstock from the power conduit to the powerhouse; (4) a 140-foot by 80-foot concrete and metal powerhouse containing three turbines with a capacity of 70 megawatts (MW); (5) an approximately 18.7-mile-long, 138-kV transmission line which will tie into an undetermined interconnection near Petersburg; and (6) appurtenant facilities. The estimated annual generation of the Cascade Creek project would be 205 gigawatt-hours.

Applicant Contact: Chris Spens, Cascade Creek, LLC, 3633 Alderwood Avenue, Bellingham, WA 98225.

FERC Contact: Ryan Hansen (202) 502-8074 or by e-mail at ryan.hansen@ferc.gov.

Deadline for filing comments, motions to intervene, competing applications (without notices of intent), or notices of intent to file competing applications: 60 days from the issuance of this notice. Competing applications and notices of

intent must meet the requirements of 18 CFR 4.36. Comments, motions to intervene, notices of intent, and competing applications may be filed electronically via the Internet. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration, using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support. Although the Commission strongly encourages electronic filing, documents may also be paper-filed. To paper-file, mail an original and seven copies to: Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

More information about this project, including a copy of the application, can be viewed or printed on the "eLibrary" link of Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>.
