

Estuarine Research Reserve contains the collective vision, mission, goals, and objectives of the reserve; updates the reserve boundary; as well as outlines plans for facility use and development to support reserve operations. The objectives described in this plan address the most critical coastal issues of the reserve related to water quality (non-point source pollution), invasive species, habitat loss and regional ecosystem impacts of climate change. Since the last approved management plan in 2000, the reserve has become fully staffed; added a Coastal Training Program that delivers science-based information to key decisionmakers; and developed partnerships to continue to restore and protect land and waters in the Old Woman Creek watershed. In addition to programmatic and staffing advances, the reserve has completed construction of a new dormitory, boathouse, and administrative spaces.

This management plan includes a boundary expansion of 2.2 acres. This land was incorporated with the State nature preserve in 2004 and is subject to all protection afforded by Ohio laws governing State nature preserves. The additional parcel is adjacent to the reserve's southwestern boundary and consists of early successional habitat (e.g., various *Cornus* sp.) and will become an area dominated by mixed hardwoods. Incorporating these lands increases the size of the reserve to 573 acres. This plan can be accessed for review at: <http://www.oldwomancreek.org>.

Critical Materials Strategy Request for Information

AGENCY: Department of Energy.

ACTION: Notice of availability of Request for Information (RFI).

SUMMARY: The U.S. Department of Energy (DOE) is seeking information from stakeholders on rare earth

elements and other materials used in energy technologies to support analyses updating its *2010 Critical Materials Strategy*.

FOR FURTHER INFORMATION CONTACT: For further information or to obtain a copy of this Request for Information (RFI), please contact DOE at materialstrategy@hq.doe.gov or call 202-586-5800. The RFI is also available on DOE's Web site at <http://www.pi.energy.gov>.

DATES: Responses to the RFI are due no later than 5 p.m. (EDT) on May 24, 2011.

SUPPLEMENTARY INFORMATION: Last year, DOE issued its first *Critical Materials Strategy*. This year, DOE will update its analysis. The responses to this RFI will help DOE develop a more detailed picture of technology material content, supply chain structure, financing, R&D, energy technology transitions and recycling. This information will help DOE to analyze material criticality and determine the best policies to promote diverse, sustainable and economical supplies, as well as efficient use.

Dated: March 18, 2011.

David Sandalow,

Assistant Secretary for Policy and International Affairs, Department of Energy.
