Estimated Annual Reporting and Recordkeeping “Non-hour” Cost Burden: We have identified no “non-Hour cost” burdens.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Comments: Before submitting an ICR to OMB, PRA Section 3506(c)(2)(A) requires each agency to “* * * provide 60-day notice in the **Federal Register** * * * and otherwise consult with members of the public and affected agencies concerning each proposed collection of information * * *.” Agencies must specifically solicit comments to: (a) Evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information; (c) enhance the quality, usefulness, and clarity of the information to be collected; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

The PRA also requires agencies to estimate the total annual reporting “non-hour cost” burden to respondents or recordkeepers resulting from the collection of information. If you have costs to generate, maintain, and disclose this information, you should comment and provide your total capital and startup cost components or annual operation, maintenance, and purchase of service components. You should describe the methods you use to

estimate major cost factors, including system and technology acquisition, expected useful life of capital equipment, discount rate(s), and the period over which you incur costs. Capital and startup costs include, among other items, computers and software you purchase to prepare for collecting information; monitoring, sampling, and testing equipment; and record storage facilities. Generally, your estimates should not include equipment or services purchased: (i) Before October 1, 1995; (ii) to comply with requirements not associated with the information collection; (iii) for reasons other than to provide information or keep records for the Government; or (iv) as part of customary and usual business or private practices.

We will summarize written responses to this notice and address them in our ICR submission for OMB approval, including appropriate adjustments to the estimated burden. We will provide a copy of the ICR to you without charge upon request. We also will post the ICR at http://www.onrr.gov/Laws_R_D/FRNotices/FRInfColl.htm.

Public Comment Policy: We will post all comments, including names and addresses of respondents, at <http://regulations.gov>. Before including your address, phone number, e-mail address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public view your personal identifying information, we cannot guarantee that we will be able to do so.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Central Valley Project Improvement Act, Standard Criteria for Ag and Urban Water Management Plans

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of availability.

SUMMARY: The “Standard Criteria for Agricultural and Urban Water Management Plans” (Criteria) are now available for public comment. To meet the requirements of the Central Valley Project Improvement Act of 1992 (CVPIA) and the Reclamation Reform Act of 1982 (RRA), the Bureau of Reclamation (Reclamation) developed and published the Criteria. The Criteria apply to any Water Management Plans (Plans) submitted to Reclamation as required by applicable Central Valley Project (CVP) water service contracts, settlement contracts, or any contracts that specifically invokes the Criteria. Note: For the purpose of this announcement, Water Management Plans are considered the same as Water Conservation Plans.

DATES: Submit written comments by April 25, 2011.

ADDRESSES: Please mail comments to Ms. Melissa Crandell, Bureau of Reclamation, 2800 Cottage Way, MP-410, Sacramento, California 95825, 916-978-5208, or e-mail at mcrandell@usbr.gov.

FOR FURTHER INFORMATION CONTACT: To be placed on a mailing list for any subsequent information or to obtain a copy of any water management plans, please contact Ms. Crandell at the e-mail address or telephone number above.

SUPPLEMENTARY INFORMATION: Section 3405(e) of the CVPIA (Title 34 Pub. L. 102-575), requires the Secretary of the Interior to establish and administer an office on Central Valley Project water conservation best management practices (BMPs) that shall develop Criteria for evaluating the adequacy of all Plans developed by project contractors, including those Plans required by section 210 of the RRA. In addition, according to section 3405(e)(1), the Criteria must be developed “* * * with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices.” The Criteria states that all parties (Contractors) that contract with Reclamation for water supplies (except any contractor who receives less than a five-year average of 2,000 acre-feet per year (AFY) of only municipal and industrial (urban) water, any contractor who receives any combination of irrigation and/or urban water amounting to less than a current five-year average of 2,000 AFY, and agricultural contracts under a current five-year average of 2,000 irrigable acres) must prepare Plans that contain the following information:

1. Description of the District
2. Inventory of Water Resources
3. BMPs for Agricultural Contractors
4. BMPs for Urban Contractors
5. Plan Implementation

Reclamation will evaluate Plans based on the Criteria. The CVPIA requires Reclamation to evaluate, and revise if necessary, the Criteria every 3 years. The Criteria were last updated in 2008 and the proposed 2011 update is currently under review. Public scoping meetings to solicit comments on revision of the Criteria were held in January and February 2011. Comments will be incorporated into the finalized document. A copy can be found at the following Web site: http://www.mp.usbr.gov/watershare/news/2011_Standard_Criteria.pdf. A copy can also be obtained by contacting persons at the address above.

Public Disclosure: Before including your name, address, phone number,

e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Dated: March 18, 2011.
