

Thursday, April 28, 2011, to consider various matters.

The RRSC was established to advise TVA on its natural resource stewardship activities. Notice of this meeting is given under the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2.

The management of the Tennessee Valley reservoirs and the lands adjacent to them has long been an integral component of TVA's mission. As part of implementing the TVA Environmental Policy, TVA is developing a Natural Resource Plan (NRP) that will help prioritize techniques for the management of TVA's biological and cultural resource management activities, recreation management activities, water resource protection and improvement activities, and lands planning. In accordance with the National Environmental Policy Act, TVA is also developing an accompanying Environmental Impact Statement (EIS) in which TVA will evaluate the preferred strategy for the NRP, as well as other viable alternative strategies. TVA is using the RRSC as a key stakeholder group throughout the development of the NRP to advise TVA on the issues, tradeoffs, and focus of environmental stewardship activities. The draft NRP and accompanying draft EIS were recently released for public comment. At the April 2011 meeting, TVA will be seeking advice from the Council on issues regarding the programs which comprise the draft NRP.

The meeting agenda includes the following:

1. Introductions.
2. NRP Overview; Programs included in the draft NRP for biological, cultural, water, and recreational resources and lands planning; Incorporation of Guiding Principles and advice received from the RRSC at its January 2011 meeting; Public comments received regarding the draft NRP and draft EIS.
3. Tour of Melton Hill Dam Campground; Presentations regarding several specific ongoing or proposed stewardship programs.
4. RRSC Discussion Topic: The scope of the programs included in the resource area components of the draft NRP and the benefits and challenges stemming from such programs.
5. Public Comments.
6. Council Discussion and Advice.

The RRSC will hear opinions and views of citizens by providing a public comment session. The public comment session will be held at 10 a.m., EDT, on Thursday, April 28. Persons wishing to speak are requested to register at the door by 9 a.m. on Thursday, April 28 and will be called on during the public

comment period. Handout materials should be limited to one printed page. Written comments are also invited and may be mailed to the Regional Resource Stewardship Council, Tennessee Valley Authority, 400 West Summit Hill Drive, WT 11B, Knoxville, Tennessee 37902.

Agency Information Collection Activities: Proposed Collection; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: 30-Day notice of submission of information collection approval from the Office of Management and Budget and request for comments.

SUMMARY: As part of a Federal Government-wide effort to streamline the process to seek feedback from the public on service delivery, FAA has submitted a Generic Information Collection Request (Generic ICR): "Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery" to OMB for approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 *et seq.*).

DATES: Comments must be submitted by April 27, 2011.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to the attention of the Desk Officer, Department of Transportation/FAA, and sent via electronic mail to oir_submission@omb.eop.gov, or faxed to (202) 395-6974, or mailed to the Office of Information and Regulatory Affairs, Office of Management and Budget, Docket Library, Room 10102, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Carla Scott on (202) 267-9895, or by e-mail at: Carla.Scott@faa.gov.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Abstract: The information collection activity will garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: the target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results.

The FAA received no comments in response to the 60-day notice published in the **Federal Register** of December 22, 2010 (75 FR 80542).
