SUPPLEMENTARY INFORMATION:

Title: 30 CFR Part 291, Open and Nondiscriminatory Access to Oil and Gas Pipelines under the OCS Lands Act.

OMB Control Number: 1010-0172.

Abstract: The Outer Continental Shelf (OCS) Lands Act (43 U.S.C. 1331 *et seq.*), as amended, requires the Secretary of the Interior to preserve, protect, and develop OCS oil, gas, and sulphur resources; make such resources available to meet the Nation’s energy needs; balance orderly energy resources development with protection of the human, marine, and coastal environments; ensure the public a fair and equitable return on the resources offshore; and preserve and maintain free enterprise competition.

Section 1334(f)(1) states “Except as provided in paragraph (2), every permit, license, easement, right-of-way, or other

grant of authority for the transportation by pipeline on or across the outer Continental Shelf of oil or gas shall require that the pipeline be operated in accordance with the following competitive principles: (A) The pipeline must provide open and nondiscriminatory access to both owner and non-owner shippers* * *.”

Ensuring open and nondiscriminatory access to pipelines is among the responsibilities delegated to BOEMRE, which replaced the Minerals Management Service on June 18, 2010. In order to provide shippers with a methodology to file complaints alleging denial of access or that access is discriminatory access, the BOEMRE promulgated regulations at 30 CFR Part 291. The BOEMRE will use the information submitted during the complaint process to determine whether the shipper has been denied such access or to initiate a more detailed investigation into the specific circumstances of the complainant’s allegation. The complaint information will be provided to the alleged offending party. The BOEMRE may request additional information upon completion of the initial investigation.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR Part 2). No items of a sensitive nature are collected. Responses are required to obtain a benefit.

Frequency: The frequency is on occasion.

Description of Respondents: Shippers that do business on the OCS and companies that pay royalties on the OCS.
