

final results within 90 days after the date on which we issue the preliminary results. See section 751(a)(2)(B)(iv) of the Act and 19 CFR 351.214(h)(i).

In cases involving non-market economies, the Department requires that a company seeking to establish eligibility for an antidumping duty rate separate from the country-wide rate provide evidence of *de jure* and *de facto* absence of government control over the company's export activities. See, generally, *Wooden Bedroom Furniture from the People's Republic of China: Preliminary Results of Antidumping Duty New Shipper Reviews*, 75 FR 72794 (November 26, 2010), unchanged in *Wooden Bedroom Furniture from the People's Republic of China: Final Results of Antidumping Duty New Shipper Reviews*, 76 FR 9747 (February 22, 2011). Accordingly, we will issue a questionnaire to Long Mountain that will include a separate rates section. This review will proceed if the response provides sufficient indication that Long Mountain is not subject to either *de jure* or *de facto* government control with respect to its shipments of preserved mushrooms.

Upon initiation, we will direct U.S. Customs and Border Protection (CBP) to suspend liquidation of any unliquidated entries of subject merchandise produced and exported by Long Mountain and will instruct the CBP to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for certain entries of the subject merchandise produced and exported by Long Mountain in accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e). Because Long Mountain certified that it both produced and exported the subject merchandise, the sales of which form the basis for its NSR request, we will instruct CBP to permit the use of a bond only for entries of subject merchandise where Long Mountain acted both as producer and exporter.

To assist in its analysis of the *bona fides* of Long Mountain's sales, upon initiation of this NSR, the Department will require Long Mountain to submit on an ongoing basis complete transaction information concerning any sales of subject merchandise to the United States that were made subsequent to the POR.

Interested parties requiring access to business proprietary information in this NSR should submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306.

This notice serves as a reminder that any party submitting factual information

in an AD/CVD proceeding must certify to the accuracy and completeness of that information. See Section 782(b) of the Act. Parties are hereby reminded that revised certification requirements are in effect for company/government officials as well as their representatives in all AD/CVD investigations or proceedings initiated on or after March 14, 2011. See *Certification of Factual Information to Import Administration During Antidumping and Countervailing Duty Proceedings: Interim Final Rule*, 76 FR 7491 (February 10, 2011) (*Interim Final Rule*) amending 19 CFR 351.303(g)(1) and (2). The formats for the revised certifications are provided at the end of the *Interim Final Rule*. The Department intends to reject factual submissions in investigations/proceedings initiated on or after March 14, 2011 if the submitting party does not comply with the revised certification requirements.

Dated: March 24, 2011.

Christian Marsh,

Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

Certain Frozen Fish Fillets From the Socialist Republic of Vietnam: Initiation of Antidumping Duty New Shipper Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

DATES: *Effective Date:* March 31, 2011.

SUMMARY: The Department of Commerce ("Department") has determined that a request for a new shipper review ("NSR") of the antidumping duty order on certain frozen fish fillets ("fish fillets") from the Socialist Republic of Vietnam ("Vietnam"), received on February 28, 2011, meets the statutory and regulatory requirements for initiation. The period of review ("POR") for this NSR is August 1, 2010, through January 31, 2011.

FOR FURTHER INFORMATION CONTACT: Ricardo Martinez Rivera, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; *telephone:* 202-482-4532.

SUPPLEMENTARY INFORMATION:

Background

The notice announcing the antidumping duty order on fish fillets from Vietnam was published in the **Federal Register** on August 12, 2003. See *Notice of Antidumping Duty Order: Certain Frozen Fish Fillets from the Socialist Republic of Vietnam*, 68 FR 47909 (August 12, 2003). On February 28, 2011, pursuant to section 751(a)(2)(B)(i) of the Tariff Act of 1930, as amended ("Act"), the Department received a properly filed NSR request during the semi-annual anniversary month of the antidumping duty order from Thuan An Production Trading & Services Co., Ltd. ("Tafishco"). Tafishco certified that it is both the producer and exporter of the subject merchandise upon which the request was based.

Pursuant to section 751(a)(2)(B)(i)(I) of the Act and 19 CFR 351.214(b)(2)(i), Tafishco certified that it did not export subject merchandise to the United States during the period of investigation ("POI"). In addition, pursuant to section 751(a)(2)(B)(i)(II) of the Act and 19 CFR 351.214(b)(2)(iii)(A), Tafishco certified that, since the initiation of the investigation, it has never been affiliated with any Vietnamese exporter or producer who exported subject merchandise to the United States during the POI, including those respondents not individually examined during the POI. As required by 19 CFR 351.214(b)(2)(iii)(B), Tafishco also certified that its export activities were not controlled by the central government of Vietnam.

In addition to the certifications described above, pursuant to 19 CFR 351.214(b)(2)(iv)(A), (B) and (C), Tafishco submitted documentation establishing the following: (1) The date on which Tafishco first shipped subject merchandise for export to the United States; (2) the volume of its first shipment; and (3) the date of its first sale to an unaffiliated customer in the United States.

The Department conducted U.S. Customs and Border Protection ("CBP") database queries in an attempt to confirm that Tafishco's shipments of subject merchandise had entered the United States for consumption and that liquidation of such entries had been properly suspended for antidumping duties. The Department also examined whether the CBP data confirmed that such entries were made during the NSR POR. The information we examined was consistent with that provided by Tafishco.

Initiation of New Shipper Review

Pursuant to section 751(a)(2)(B) of the Act and 19 CFR 351.214(d)(1), we find that Tafishco meets the threshold requirements for initiation of a NSR for the shipments of fish fillets from Vietnam produced and exported by Tafishco. See "Memorandum to the File from Ricardo Martinez Rivera, International Trade Compliance Analyst, Initiation of AD New Shipper Review: Certain Frozen Fish Fillets from the Socialist Republic of Vietnam (A-552-801)," dated concurrently with this notice.

The Department intends to issue the preliminary results of this NSR no later than 180 days from the date of initiation, and the final results no later than 270 days from the date of initiation. See section 751(a)(2)(B)(iv) of the Act.

It is the Department's usual practice, in cases involving non-market economy countries, to require that a company seeking to establish eligibility for an antidumping duty rate separate from the country-wide rate provide evidence of *de jure* and *de facto* absence of government control over the company's export activities. Accordingly, we will issue a questionnaire to Tafishco, which will include a section requesting information concerning Tafishco's export activities for separate rates purposes. The review will proceed if the response provides sufficient indication that Tafishco is not subject to either *de jure* or *de facto* government control with respect to its export of subject merchandise.

We will instruct U.S. Customs and Border Protection to allow, at the option of the importer, the posting, until the completion of the review, of a bond or security in lieu of a cash deposit for each entry of the subject merchandise from Tafishco in accordance with section 751(a)(2)(B)(iii) of the Act and 19 CFR 351.214(e). Because Tafishco certified that it produced and exported the subject merchandise, the sale of which is the basis for this new shipper review request, we will apply the bonding privilege to Tafishco only for subject merchandise which Tafishco both produced and exported.

To assist in its analysis of the *bona fides* of Tafishco's sales, upon initiation of this new shipper review, the Department will require Tafishco to submit on an ongoing basis complete transaction information concerning any sales of subject merchandise to the United States that were made subsequent to the POR.

Interested parties requiring access to proprietary information in this NSR

should submit applications for disclosure under administrative protective order in accordance with 19 CFR 351.305 and 351.306. This initiation and notice are published in accordance with section 751(a)(2)(B) of the Act and 19 CFR 351.214 and 351.221(c)(1)(i).

Dated: March 24, 2011.

Gary Taverman,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Institute of Standards and Technology

Proposed Information Collection; Comment Request; Usage of Elevators for Occupant Evacuation Questionnaire

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before May 31, 2011.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Erica Kuligowski, erica.kuligowski@nist.gov, 301-975-2309.

SUPPLEMENTARY INFORMATION:

I. Abstract

NIST's research on elevators has primarily focused on the technical aspects of ensuring safe and reliable evacuation for the occupants of tall buildings. In addition, the International Code Council and the National Fire Protection Association provide requirements for the use of elevators for both occupant evacuation and fire

fighter access into the building. However, there still is little understanding of how occupants use elevator systems during fire emergencies.

The main focus of this research effort is to gain an understanding of how elevators are currently used by occupants of existing multi-story buildings in the United States during fire emergencies. This research aims to summarize emergency plans and procedures from buildings that make use of one or multiple elevators from the existing elevator system (used for normal building traffic) for the evacuation of building occupants during fire emergencies. Building managers and designated safety personnel from existing buildings in the United States, including federal buildings, will be contacted to fill out a questionnaire asking about how the buildings' evacuation plans incorporate the use of the existing elevator system to evacuate occupants during fire emergencies, specifically individuals with disabilities, if at all.

II. Method of Collection

This data will be collected electronically. Questionnaires will be made available on a secured website and the link to this website will be distributed by NIST staff to building property managers and designated safety personnel.

III. Data

OMB Control Number: None.

Form Number: None.

Type of Review: Regular submission (new information collection).

Affected Public: Selected individuals, such as building managers and designated safety personnel, who are familiar with or in charge of developing emergency procedures for multi-story buildings in the United States, including both federal and private sector buildings.

Estimated Number of Respondents: 1,500.

Estimated Time per Response: 15 minutes.

Estimated Total Annual Burden Hours: 375.

Estimated Total Annual Cost to Public: \$0.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the
