

its own use, a new PIA will be conducted.

System: NICC SARS: National Infrastructure Coordinating Center Suspicious Activity Reporting Initiative (NICC).

Component: National Protection and Programs Directorate (NPPD).

Date of approval: December 29, 2010. NPPD Office of Infrastructure Protection (IP) National Infrastructure Coordinating Center (NICC) has published this PIA to reflect activities under its Suspicious Activity Reporting (SAR) Initiative. The NICC SAR Initiative serves as a mechanism by which a report involving suspicious behavior related to an observed encounter or reported activity is received and evaluated to determine its potential nexus to terrorism. NICC is conducting this PIA because SAR occasionally contain PII and NICC will be collecting and contributing SAR data for reporting and evaluation proceedings.

System: Publicly Available Social Media Monitoring and Situational Awareness Initiative Update.

Component: OPS.

Date of approval: January 7, 2011. OPS, NOC, leads the Publicly Available Social Media Monitoring and Situational Awareness (Initiative) to assist the DHS and its components involved in fulfilling OPS statutory responsibility (Section 515 of the Homeland Security Act (6 U.S.C. 321d(b)(1)) to provide situational awareness and establish a common operating picture for the federal government, and for those state, local, and tribal governments, as appropriate. The NOC and participating components may also share this de-identified information with international partners and the private sector where necessary and appropriate for coordination. While this Initiative is not designed to actively collect PII, OPS is conducting this update to the PIA because the initiative may now collect and disseminate PII for certain narrowly tailored categories. For example, in the event of an in extremis situation involving potential life and death, OPS will share certain PII with the responding authority in order for them to take the necessary actions to save a life, such as name and location of a person calling for help buried under rubble, or hiding in a hotel room when the hotel is under attack by terrorists. In the event PII comes into the Department's possession under circumstances other than those itemized herein, the NOC will redact all PII prior to further dissemination of any collected information. After conducting the

Second Privacy Compliance Review, it was determined that the PIA should be updated to allow for collection and dissemination of PII in a limited number of situations in order to respond to the evolving operational needs of the NOC. The PIA will be reviewed every six months to ensure compliance. The review will be done in conjunction with a Privacy Office-led Privacy Compliance Review (PCR) of the Initiative and of OPS social media monitoring Internet-based platforms and information technology infrastructure.
