

assist APHIS in developing more effective methods for the NEPA process. APHIS intends to create mechanisms for early and frequent interactions between APHIS' Biotechnology Regulatory Services program staff and participants in the pilot project to identify and thoroughly evaluate the potential environmental impacts pertinent to the Agency's NEPA analysis. This pilot will also include mechanisms to identify NEPA-related issues early in the process involving both the petitioners and interested partners. APHIS also intends to use the pilot project to develop guidance for all petitioners that clearly identifies the information needed to initiate and complete the required NEPA analysis.

APHIS will evaluate the overall results of the pilot project, including the effectiveness of using environmental analyses and documents prepared by petitioners (environmental reports) as compared to environmental analyses and documents prepared using an independent contractor (EAs and EISs), and a cost analysis of the two approaches in relationship to the quality and timeliness of the final product.

APHIS is soliciting letters of interest from regulated entities interested in participating in the NEPA Pilot Project; no limit has been set on the number of participants. APHIS anticipates that the pilot project will run for 2 years. However, APHIS is interested in advancing the pilot project in the next few months and therefore encourages interested entities to submit letters of interest as soon as possible. Interested entities may submit letters of interest by mail or e-mail through April 8, 2013 to the person listed under **FOR FURTHER INFORMATION CONTACT**. APHIS will promptly contact all entities that submit letters of interest to discuss their participation in the NEPA Pilot Project.
